COMMITTEE ON FEDERAL AND STATE LEGISLATION.

Governor and General Assembly Urged to Investigate Feasibility of Legislation for Creation of Risk Pool for Mortgage and Home Improvement Loans.

The Committee on Federal and State Legislation submitted the following report:

CHICAGO, May 29, 1974.

To the President and Members of the City Council:

Your Committee on Federal and State Legislation, having under consideration a Resolution, (which was referred on May 22, 1974), urging the Governor of the State of Illinois and the General Assembly to investigate the feasibility of legislation to create an assigned risk pool for mortgage and home improvement loans, begs leave to recommend that your Honorable Body adopt the said proposed resolution, which is transmitted herewith, and respectfully petition the General Assembly to enact same into law.

This recommendation was concurred in by 12 members of the committee with no dissenting vote.

Respectfully submitted,

(Signed) FRED B. ROTI,
Chairman.

On motion of Alderman Roti the proposed resolution transmitted with the foregoing committee report was *Adopted,* by yeas and nays as follows:

Yeas—Aldermen Roti, Barnett, Kenner, Evans, Despres, Sawyer, Cousins, Adduci, Vrdolyak, Bilandic, Kwak, Madrzyk, Burke, Lawlor, Langford, Shannon, Hines, Fitzpatrick, Kelley, Stewart, Stemberk, Rhodes, Marzullo, Zydlo, Ray, Washington, Cross, Filippini, Keane, Gabinski, Sande, Frost, Laskowski, Aiello, Casey, Cullerton, Laurino, Simon, Pucinski, Natarus, Singer, Simpson, Fifielski, Hoellen, Hedlund, Wigoda, Stone—47.

Nays—None.

The following is said resolution as adopted:

WHEREAS, There is evidence of the fact that mortgage loans and home improvement loans are being denied to qualified loan applicants because the property to be mortgaged is located in areas classified as "high risk loan areas" by financial institutions, this classification of areas commonly known as "red lining"; and

WHEREAS, "Red lining" is detrimental to the maintenance and upkeep of real property and can

only result in the deterioration of the community being red lined; and

WHEREAS, A possible solution to the problem of red lining can be found in the concept of an assigned risk pool similar to the concept employed by the Department of Insurance of the State of Illinois with respect to automobile insurance; now, therefore,

The following is said ordinance as passed:

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. Chapter 17 of the Municipal Code of Chicago is hereby amended by deleting from Article II, Sections 17-2.18, 17-2.19, 17-2.20, 17-2.21, 17-2.22, 17-2.23 and 17-2.24, in their entirety, the same being hereby repealed.

SECTION 2. Chapter 17 of the Municipal Code of Chicago is amended in Article II, Sections 17-2.3, 17-2.4, 17-2.5, 17-2.6, 17-2.10, 17-2.12, 17-2.25, 17-2.28, 17-2.35, 17-2.39, 17-2.40, 17-2.41, 17-2.42, 17-2.43 and 17-2.52 by deleting the words and figures contained in brackets below and inserting the following new words and figures, in Italics below:

17-2.3(a) It shall be unlawful within the City of Chicago, and within one mile of the corporate limits thereof, for any person, owner, agent, operator, firm or corporation to permit, to cause, suffer or allow the emission of any smoke from any source whatever of a density, shade or opacity [equal to or] greater than that described as No. [2] *1 1/2* on the Ringelmann Chart, as published by the United States Bureau of Mines, provided that the following exceptions to the provision of this Section shall be permitted for fuel burning, combustion or process equipment:

(1) For a period or periods aggregating 4 minutes in any 30 minutes of a density, shade or opacity equal to but not greater than that described as No. 2 on the Ringelmann Chart. *Except emissions of water and water vapor shall not apply to emissions under this provision.*

(2) For a period or periods aggregating 4 minutes in any 60 minutes of a density, shade or opacity equal to but not greater than that described as No. [2] *3* on the Ringelmann Chart when building a new fire [.], *banking fires, and soot blowing.*

[(b) It shall be unlawful within the City of Chicago, and within one mile of the corporate limits thereof, for any person, owner, agent, operator, firm or corporation to permit, to cause, suffer or allow the emission of any smoke from any source whatever of a density, shade or opacity equal to or greater than that described as No. 1 on the Ringelmann Chart for fuel-burning, combustion, or process equipment the plans for which are less than 50% completed by July 1, 1970.]

(b) Determination of violations of Section 17-2.3(a).

(1) By qualified certified smoke reader through visual observation.

(2) By the use of a calibrated smoke evaluation device approved by the commissioner.

(3) By the use of a smoke monitor located in the stack with recording devices attachment approved by the commissioner.

(c) The commissioner may require any person, owner, agent, operator, firm or corporation whom he believes to be in violation of this Section 17-2.3 to provide a smoke monitor which shall be installed in such a manner that it will continuously monitor the density of smoke emission from the stack in question. Measurements of the smoke monitor shall be automatically transmitted to a recording device capable of maintaining a record of the data, which shall be made available to the commissioner upon request.

17-2.4. Subject to the provisions of Section 17-2.5, it shall be unlawful within the City of Chicago and within one mile of the corporate limits thereof for any person owning or in charge of any fuel-burning, combustion or process equipment device, or any portable boiler, to cause, suffer or allow the emission from any such source of any particulate matter except in conformity with the limits set forth below, as follows:

(1) The limitation for all *new* industrial particulate emissions shall be 0.10 grains per standard cubic foot, with the exception of indirect heat exchanger emissions and incinerator emissions, *on industrial processes up to 100,000 pounds per hour, 0.05 grains per standard cubic foot on industrial processes from over 100,000 pounds to 500,000 pounds per hour, 0.03 grains per standard cubic foot from over 500,000 to 750,000 pounds per hour, and 0.02 grains per standard cubic foot from over 750,000 pounds to 1,000,000 pounds per hour. All emission limitations shall be from a stack, with the exception of indirect heat exchanger emissions and incinerator emissions. Calculation of allowable emissions for new industrial process rates up to 450 tons per hour shall be accomplished by the use of the equation* $E = 2.54\ (P)\ exp\ 0.534$ *where* $E =$ *rate of emissions in pounds per hour and* $P =$ *process weight rate in tons per hour. Calculation of allowable emissions for industrial process rates greater than 450 tons per hour shall be accomplished by use of the equation* $E = 24.8(P)\ exp\ 0.16$.

The limitation for all existing industrial particulate emissions shall be 0.10 grains per standard cubic foot, with the exception of indirect heat exchanger emissions and incinerator emissions, on industrial processes up to 100,000 pounds per hour, 0.05 grains per standard cubic foot on industrial processes from over 100,000 pounds to 500,000 pounds per hour, 0.03 grains per standard cubic foot from over 500,000 to 750,000 pounds per hour, and 0.02 grains per standard cubic foot from over 750,000 pounds to 1,000,000 pounds per hour. All emission limitations shall be from a stack, with the exception of indirect heat exchanger emissions and incinerator emissions. Calculation of the allowable emissions for existing industrial process rates up to 30 tons per hour shall be accomplished by use of the equation $E = 4.10(P)\ exp\ 0.67$ *where* $E =$ *rate of emissions in pounds per hour and* $P =$ *process weight rate in tons per hour. Calculation of allowable emissions for existing industrial process rates greater than 30 tons per hour shall be accomplished by use of the equation* $E = [55.0(P)\ exp\ 0.11] - 40.0$.

Where the nature of any process or operation or the design of any equipment is such as to permit more than one interpretation of this regulation, the interpretation that results in the minimum value for allowable emission shall apply. Compliance test shall be performed and assumed at the cost to the owners. Exception:—Sinter Processes. No person shall cause or allow the emission of particulate matter into the atmosphere from the main windbox of any sinter process to exceed 1.2 times the allowable emission rate for new industrial processes. For the breaker stack, the emissions shall not exceed the allowable emissions for new processes.

(2) The emissions from indirect heat exchangers shall be limited as follows:

For equipment over 288,000 and under 10 million BTU's per hour input, the dust emissions shall be limited to 0.5 pounds per million BTU's input. If the capacity rating of the fuel-burning equipment is more than 10 million BTU's per hour input, the amounts of particulate matter which may be emitted for each million BTU input shall decrease as the capacity rating of the fuel-burning equipment increases as follows:

(a) No more than .50 pounds for each million BTU's input from equipment having a capacity rating of 10 million;

(b) No more than .39 pounds for each million BTU's input from equipment having a capacity rating of 50 million;

(c) No more than .34 pounds for each million BTU's input from equipment having a capacity rating of 100 million;

(d) No more than .23 pounds per each million BTU's input from equipment having a capacity rating of 1,000 million;

(e) No more than .18 pounds for each million BTU's input from equipment having a capacity rating of 5,000 million.

The amount of particulate matter which may be emitted from fuel-burning equipment having an intermediate capacity rating shall be determined by linear interpolation when plotted on Log-Log Graph Paper.

If two or more fuel-burning units are connected to a single flue, the total capacity rating of all fuel-burning units connected to the flue shall be the capacity rating for the purpose of computing the amount of particulate matter which may be emitted. If a single fuel-burning unit is manifolded to two or more flues, the capacity rating of the single fuel-burning unit shall be the capacity rating for the purpose of computing the amount of particulate matter which may be emitted. [The foregoing requirements shall be measured by the methods of the American Society of Mechanical Engineers (ASME), Power Test Code 27-1957 (PTC27-1957), Determining Dust Concentration in a Gas Stream, which is hereby made a part of this chapter by reference, or in acordance with modified procedures mutually agreed upon by the Commissioner and such person. A copy of the said Code shall be kept on file in the office of the Department subject to examination by interested persons.] *However, effective May 30, 1975, no person shall cause or allow the emission of particulate matter into the atmosphere from any new or existing fuel combustion source using solid and/or liquid fuel, to exceed 0.1 pounds of particulate matter per million BTU's of actual heat input in any one hour period.*

(3) A specified volume ratio, or other suitable index, or particulate bearing gas shall be established in accordance with Section 17-1.11, subparagraph (11) for various pieces, types or classes of fuel-burning, combustion or process equipment or devices, which constitute potential sources of emission of particulate matter; provided, however, that with respect to coal burning combustion equipment the basic limitations set forth in subparagraph (1) of this section shall be adjusted to a gas volume based upon 50% excess air.

(4) All existing combustion equipment shall meet the limitations of this section on and after June 29, 1970, and all new equipment shall meet the limitations upon installation.

(5) All existing process and control equipment shall meet the limitations set forth in subparagraph (1) of this section on and after June 29, 1969, and all new equipment shall meet the limits upon installation.

(6) Emissions of particulate matter from all fuel-burning combustion or process equipment or devices shall not exceed emissions which would result from operations in accordance with limitations set forth in this chapter.

(7) The basic limitation on the average emission into the atmosphere of particulate matter from an incinerator shall be 0.20 grains per cubic foot of gas at standard conditions. These calculations are to be made at 50 per cent excess air and are to be the result of tests conducted in the field under field conditions, costs of which shall be assumed by the owners if emissions exceed allowable limits. All existing incinerators shall meet the limitations set forth in this paragraph on and after January 1, 1971, and all new equipment shall meet the limitations upon installation.

(8) The emissions, other than water vapor, from any sources that are liable to generate or evolve into particulate form through phase change or other transformation shall be deemed to be particulate matter at the emitted point.

(9) Particulate emissions from stationary emission sources subject to Section 17-2.4 shall be determined by the procedures described in Federal Register Volume 36, No. 247, Part II, December, 1971, except as modified as follows:

(a) Sample caught in impinger portion of train shall not be considered as emitted particulate.

(10) No demolition of a structure shall be initiated unless all safeguards necessary and practicable to minimize the emission of airborne dust and asbestos are taken.

(a) Notice of intention to demolish shall be made to the Department of Environmental Control ten days prior to the commencement of demolition. Such notice shall include the following information: name of owner or wrecker; address of owner or wrecker; description of the building, structure, facility or installation; scheduled starting and completion dates of demolition; method of demolition to be employed; procedures to be employed to meet the requirements of these regulations; and extent of asbestos materials described in 10(b).

(b) Boilers, pipes and steel members insulated or fireproofed with asbestos containing material shall be adequately wetted and stripped before any demolition or toppling is begun. This procedure shall be followed as to all other asbestos-coated surfaces. Such asbestos waste shall be immediately bagged and provision made for disposal at a sanitary landfill.

(c) Adequate wetting to suppress the dust shall be employed before and during the demolition or toppling of any section or wall of the structure.

(d) Partial demolition is permitted without complete stripping of asbestos materials from the entire structure, provided the provisions of 10(a), 10(b), and 10(c) are observed for the section to be demolished.

(e) Debris shall be transported through dust-tight chutes or in buckets and shall not be dropped or thrown from any floor. Any debris in chutes or buckets shall be sufficiently wetted to preclude dust dispersion at the point of discharge.

(f) All debris shall be thoroughly wetted before loading into trucks, vehicles or other containers. During transport, such waste shall be enclosed or covered so as to prevent dust dispersion.

(g) Dust and debris from the demolition operations shall be removed daily from adjacent streets, sidewalks, and alleys.

(h) Materials which contain asbestos physically bound to the parent material in such a manner that there will be no emission of airborne dust are exempt from the provisions of this section. Examples of such materials are wall and ceiling tile, shingles, and caulking materials.

(11) Any wrecker of a demolition operation who intends to demolish a building, structure, facility, or installation to which the provisions of Section 17-2.4(10)(a) would be applicable, but which has been declared by proper State or local authority to be structurally unsound, and which is in danger of imminent collapse, is exempt from the requirements of this paragraph, other than the handling of debris as specified in 10(g) and 10(h).

17-2.5. The following provisions shall be applicable to the processes and equipment hereinafter set forth in lieu of the limits upon the emission of smoke and particulate matter contained in Sections 17-2.3 and 17-2.4 hereof:

(1) Railroad Locomotives—Diesel

(a) Immediately after starting the engine of a diesel locomotive, smoke of an appearance, density, or shade in excess of No. 2 on the Ringelmann Chart shall be prohibited except that No. 3 smoke shall be allowed for a period or periods aggregating not more than four minutes during the first fifteen-minute period.

(b) Immediately after starting the steam generator on a diesel locomotive, smoke of an appearance, density, or shade in excess of No. 2 on the Ringelmann Chart shall be prohibited except that No. 3 smoke shall be allowed for a period or periods aggregating not more than two minutes but not thereafter.

(c) After a diesel yard or switching locomotive is in service or ready for service, smoke of an appearance, density, or shade in excess of No. 2 of the Ringelmann Chart shall be prohibited except that No. 3 smoke shall be allowed for a period or periods aggregating not more than one minute in any fifteen-minute period.

(d) After a diesel road or transfer locomotive is in service or ready for service, smoke of an appearance, density, or shade in excess of No. 2 of the Ringelmann Chart shall be prohibited except that No. 3 smoke shall be allowed for a period or periods aggregating not more than one minute in any fifteen-minute period.

(2) Steamships and Other Vessels

(a) When building, banking or cleaning fires or when maneuvering or ballasting, smoke of an appearance, density, or shade in excess of No. 2 of the Ringelmann Chart shall be prohibited except that No. 3 smoke shall be allowed for a period or periods aggregating not more than six minutes in any sixty-minute period.

(b) When building the original fires at the start of seasonal operations, or under emergency conditions when it is necessary to operate a boat with a fluctuating load upon the boilers to prevent danger to life or property, the foregoing restrictions on emissions shall not apply.

(c) When a steamship or other vessel is in service, except as provided to cover particular conditions stated in this section, the provisions of Section 17-2.3 hereof shall apply.

The following provisions shall be applicable to all processes and equipment in addition to the limits upon the emission of smoke and particulate matter contained in Sections 17-2.3 and 17-2.4 hereof:

(3) [Sulfur Dioxide Limitation] *Sulfur Limits in Fuel*

(a) No person within the City of Chicago or within one mile of the corporate limits thereof shall cause or permit the use, or, is intended for use in the City of Chicago or within one mile

of the corporate limits thereof, the purchase, sale, offer for sale, storage or transportation of fuel, which, as determined by the Methods of the American Society for Testing and Materials, contains more than the following percentage of sulfur by weight in the following use classifications:

(i) All new space heating equipment, the plans for which are 50% or more completed by July 1, 1970, shall be limited to the use of fuels containing no more than 1.0% of sulfur by weight.

(ii) All existing space heating equipment shall be limited to the use of fuels containing not more than 2.0% of sulfur by weight on and after July 1, 1970, to and including August 31, 1971; shall be limited to the use of fuels containing no more than 1.25% of sulfur by weight on and after September 1, 1971, to and including August 31, 1972; and shall be limited to the use of fuels containing no more than 1.0% of sulfur by weight on and after September 1, 1972.

(b) Upon the application of any person engaged in the operation of fuel-burning equipment, the commissioner with the approval of the appeal board may issue a certificate of operation in accordance with Section 17-2.41 of this chapter in those cases wherein the applicant shall establish that the fuel-burning equipment is operated in such a manner or is equipped with such control apparatus as to continually prevent the emission of any sulfur compound or compounds in amounts greater than those that would be emitted from the burning (in the same fuel-burning equipment without such control apparatus) of fuel containing any amount of sulfur by weight not in excess of the maximum amount permitted at the applicable time by this section.

(c) On and after July 1, 1970, and until the requirements of subparagraphs (a) or (b) of this subsection (3) are met, no fuel-burning installation generating electrical power shall burn a fuel or fuels having a higher average sulfur content than the fuel or fuels used in such installation during each of the twelve calendar months prior to July 1, 1970, based on a comparable BTU content. For the purpose of determining compliance with this provision, the average sulfur content of all fuel or fuels used during each of the calendar months prior to July 1, 1970, shall be determined by averaging the sulfur content of all fuel used during each calendar month from and after July 1, 1970, when compared with the same calendar month of the previous year, and determined upon the same averaging basis.

(d) The provisions of subparagraph (3)(a) of this section shall not apply to acts performed with respect to fuel owned or under contract for purchase by a purchaser who used or intends to use such fuel in any fuel-burning equipment for which a certificate of operation has been issued under subparagraph (3)(b), or where a variance has been granted pursuant to the provisions of Section [17-2.55 (c) (3)] of this chapter.

(4) Sulfur [Oxides] *Dioxide Concentration*

No person shall cause or permit the emission into the atmosphere from any new or existing source gases containing more than 500 parts per million by volume of sulfur dioxide nor more than 15 milligrams per cubic meter of sulfuric acid or sulfur trioxide, or any combination thereof; provided, however, that the foregoing limitations shall not apply to those emissions in which both fuel is burned primarily to produce heat, and the sulfur compound emission is due primarily to the sulfur in the fuel burned.

(5) Hydrogen Sulfide *Concentration*

No person shall cause or permit the emission into the atmosphere from any new or existing source of hydrogen sulfide in such manner and amounts that the concentrations thereof at the stack exceed a concentration of [0.10] *.01* parts per million by volume for a maximum period of [2 minutes] *one hour* at any time.

(b) The commissioner is hereby empowered to adopt such plans as may be necessitated in cooperation with appropriate State and Federal authorities for the purpose of eliminating the circumstances tending to cause acute harmful health effects as aforesaid, including, but not limited to, the implementation of an air pollution watch, an alert procedure, and an emergency procedure.

(c) The commissioner is hereby empowered to request and approve acceptable episode action programs on all designated SIC group designations. Approved plans shall be kept on file and subject to change from time to time.

The provisions of this section shall not apply to the provisions of Sections 17-2A.3 and 17-2A.4 of this code.

17-2.6. It shall be unlawful within the City of Chicago and within one mile of the corporate limits for any person, owner, agent, operator, firm or corporation to permit, to cause, suffer or allow the discharge, emission or release into the atmosphere from any source whatsoever of such quantities of soot, fly ash, dust, cinders, dirt, oxides, *including metallic trace elements such as lead, cadmium, zinc, vanadium, beryllium, nickel, mercury, organic materials, solvents,* gases, *which include carbon monoxide, hydrogen sulfide, nitrogen oxides,* vapors, odors, toxic or radioactive substances, waste, particulate, solid, liquid or gaseous matter or any other materials in such place, manner or concentration as to constitute atmospheric pollution.

17-2.10. It shall be unlawful to burn paper, wood, garbage, leaves, building construction, demolition debris or any other combustible material in open fires or in metal containers [; provided, however, that the effective date for the prohibition of open burning of leaves shall be on and after June 29, 1970].

The commissioner shall implement the Rules and Regulations set forth in Chapter V, PCB-R70-11, April 14, 1972, Open Burning, as promulgated by the State of Illinois Environmental Protection Agency Pollution Control Board and subject to amendment from time to time.

17-2.12. No person shall operate, or cause to be operated, upon any street, highway, public place, stream or waterway, or private premises within the City of Chicago, any internal combustion engine of any motor vehicle, boat, tug or other vehicle, while stationary or moving, which emits from any source any particulate material, smoke, obnoxious or noxious gases, fumes or vapors or any other atmospheric pollutant, in violation of Sections 17-2.3, 17-2.4 or 17-2.6 of this chapter; provided, the foregoing shall not apply to the operation of aircraft at municipal airports.

The commissioner shall implement the rules and regulations set forth in Chapter VII, PCB-R71-23, April 14, 1972, Emission Standards and Limitations for Mobile Sources promulgated by the State of Illinois Environmental Protection Agency Pollution Control Board and subject to amendment from time to time.

[It shall be unlawful for any person knowingly to sell, exchange, deliver, haul or transport to the ultimate consumer for use and consumption in any surface-burning type (hand-fired) of equipment in the city, any solid fuel which does not meet the standards of a low volatile solid fuel or which has not been approved for use with such equipment by issuance of an allowable fuel certificate or certificate of operation; provided, that the delivery, or transportation of solid fuel by railroad companies and other common carriers in the course of their common carrier business shall not be a violation of the provisions of this section.] *Fees shall be as follows, for the survey or inspection of any required ASME code work, or for other work not included under existing scheduled fees:*

For each eight hour day $100.00
For each four hours or fraction thereof 60.00

17-2.28. It shall be unlawful for any person to install, erect, construct, reconstruct, alter or add to, or cause to be installed, erected, constructed, reconstructed, altered or added to, any fuel-burning *refuse-burning, compactor,* combustion or process equipment or device, or any equipment pertaining thereto, or any stack or chimney connected therewith, within the city, excepting domestic heating plants [domestic refuse-burning equipment,] locomotives, steamships and internal combustion engines, or to make, or cause to be made, major repairs to any high pressure boiler furnace or the brickwork on or about the same in said city, until an application for installation and operating permits on forms supplied by the department including suitable plans and specifications of the fuel-burning *refuse-burning, compactor,* combustion or process equipment or device, or high pressure boiler furnace repair, and the structures or buildings used in connection therewith, has been filed in duplicate by the owner, contractor, installer, or other person, or his agent, in the office of, and has been approved by, the commissioner as being so designed that the same can be managed and operated to conform to the provisions of this chapter, and an installation permit issued by him for such installation, erection, construction, reconstruction, alteration, addition to, or repair.

Provided, however, that maintenance, or repairs or alterations which are minor in scope or do not change the capacity of such fuel-burning, *refuse-burning, compactor,* combustion or process equipment or device and which do not involve any change in the method of combustion or materially affect the emission of smoke, dust, fumes or other products of combustion therefrom, may be made without an installation permit; provided further, that an emergency repair may be made prior to the application for, and the issuance of, a required installation permit in the event an emergency arises and serious consequences would result if the repair were to be deferred. When such repair is made in emergency, application for an installation permit or operating permit therefor shall be filed in duplicate by the person or his agent in the office of the commissioner within a reasonable time after the start of such work. Each installation permit shall be posted in a conspicuous place at, or near, the work for which it was issued.

No person shall cause or allow the operation of any new emission source or new air pollution control equipment of a type for which an installation permit is required unless an application for a certificate of operation is secured. Application for certificates of operation shall be made at such times and contain such information, data, plans, drawings, calculations as specified in the application in the construction permit.

No Certificate of Operation shall be valid for more than one calendar year or until the next annual inspection.

Violations of any of the conditions of a permit, or the failure to comply with any rule or regulation of this chapter shall be grounds for revocation of the permit, as well as for other sanctions provided in the chapter. Such sanctions shall be sought by filing a complaint with the Appeal Board.

The department shall have the owner or operator of any emission source or air pollution control equipment provide, without charge to the department, necessary holds in stacks or ducts and other safe and proper testing facilities, including scaffolding, but excluding instruments and sensing devices, as may be necessary.

17-2.35. Upon completion of any work for which an installation permit was issued, the department shall be notified by the person or persons responsible therefor, and, if upon inspection it is found that such work is in conformity with the plans and specifications, and it is found to operate within the provisions of Sections 17-2.3, 17-2.4 and 17-2.6, the commissioner shall issue a certificate of operation forthwith.

17-2.39. It shall be the duty of any person responsible for any discontinued or dismantled fuel-burning, *refuse-burning, compactor,* combustion or process equipment or device coming under the jurisdiction of the permits or fees of this chapter to report to the department within thirty days the permanent discontinuance or dismantlement of such equipment or device.

No person shall cause or allow the continued operation of an emission source or related air pollution control equipment if such operation would cause a violation of the standards or limitations as set forth in Chapter 17, and shall be reported, telephoned, or telegraphed at the time of occurrence. A request for permission to continue to operate during a malfunction or breakdown, a full and detailed explanation of why such continued operation is necessary, the anticipated nature, sources and quantities of emissions which will occur during such continued operation, the anticipated length of time during which such operations will continue and complete records and reports shall be maintained and submitted to the commissioner.

No person shall cause or allow the start-up of any emission source or related air pollution equipment without first filing a notice of start-up with the Commissioner of Environmental Control.

17-2.40. An annual inspection shall be made by the department of all fuel-burning, *refuse-burning, compactor,* combustion or process equipment or devices, coming under the provisions of this chapter, whether or not a certificate of operation or allowable fuel certificate allowing use of such equipment or process has been previously issued by the commissioner, to see that such equipment or process can be so managed and operated that no smoke, particulate, or other matter shall be emitted therefrom in violation of any emission limitation or other requirement provided under this chapter; provided, however, that no annual inspection shall be required of locomotives, ships, boats, tugs, internal combustion engines, domestic heating plants, [, or domestic refuse-burning equipment]; and provided, also, that where any fuel-burning, *refuse-burning, compactor,* combustion or process equipment or device has been installed, erected, constructed, reconstructed, altered, added to, or repaired pursuant to a permit issued under Section 17-2.32, has been inspected in accordance with the requirements of Section 17-2.35 hereof, and has been in operation less than six months, an annual inspection will not be required until six months from the date such equipment was first put under fire after the completion of such work.

[The fees for each annual inspection, as hereinafter provided, shall include the issuance of a certificate of operation.]

Each annual certificate of operation shall be effective from the date thereof for a period of one year or until the next annual inspection.

17-2.41. Upon a finding that any fuel-burning, *refuse-burning, compactor,* combustion or process equipment or device inspected, on any original, annual or subsequent inspection has been found to comply with the provisions of this chapter, and after payment of the prescribed fee, the commissioner shall issue a certificate of operation which shall be posted in a conspicuous place. [at or near the equipment or process. Any certificate of operation may contain such information and certifications as are contained in allowable fuel certifications as are contained in allowable fuel certificates pursuant to Section 17-2.22.]

17-2.42. It shall be unlawful for any person or his agent to use or operate any fuel-burning, *refuse-burning, compactor,* combustion or process equipment or device which is subject to annual inspection, as hereinabove set forth, without having an effective certificate of operation therefor.

17-2.43. The commissioner shall have the same power and jurisdiction over all fuel-burning, *refuse-burning, compactor,* combustion or process equipment or devices owned or operated by any branch of the federal, state or local governments and any municipal corporation as over all other fuel-burning, *refuse-burning, compactor,* combustion or process equipment or devices subject to the terms of this chapter; and all such branches and corporations shall be subject to the requirements of this Chapter.

It shall be the duty of the commissioner to inspect at least once in each year all of such installations, and also to preserve a record of the condition with respect to the requirements of this chapter of such installations as shown by such inspection. No fee shall be charged or paid to the department or any of its employees for any original, annual or subsequent inspection of any such installation or for the certificate of operation therefor issued by the department.

17-2.52. The commissioner is hereby authorized to conduct or cause to be conducted, any test or tests as may be necessary to determine the extent of emission of particulate matter from any fuel-burning, *refuse-burning, compactor,* combustion or process equipment or device, if and when, in his judgment, there is evidence that any such equipment, process or device is exceeding any emission limitation prescribed by or under this chapter. The result of any test shall be made available to the person responsible for such property tested. Tests shall be made and the results calculated in accordance, where applicable, with American Society of Mechanical Engineers "Power Test Codes, Test Code for Determining Dust Concentration in a Gas

Stream PTC-27-1957" procedure *or Federal Register, Vol. 36, No. 247, dated December, 1971,* as revised from time to time or in accordance with modified procedures mutually agreed upon between the commissioner and the person. All tests and calculations shall be made under the direction of a competent engineer. Any test or tests to be conducted on the premises where such equipment or device is located shall be made during reasonable hours, after written notice to, and with the cooperation of, the owner or operator. *Test ports are required on all process equipment and incinerators burning more than 500 pounds of refuse per hour.* The cost of any test or tests and calculations shall be a debt due the City from any person responsible as owner, operator, or otherwise of such fuel-burning, *refuse-burning, compactor,* combustion or process equipment or device in all cases when such test or tests shall have proven any emission of particulate matter in violation of any provision of this chapter. [, and such unpaid debt shall be recoverable in any court of competent jurisdiction. If any such emission is shown by such test or tests to be within the limits of emission prescribed in this chapter, the cost of such test or tests shall be charged to the annual appropriation of the department.] *In all such cases the costs of the tests shall be an unpaid debt and shall be recoverable in any court of competent jurisdiction.*

No person shall operate or use any device, machine, equipment, or other contrivance for the inedible rendering of animal or marine matter unless all gases, vapors, and gas entrained effluents from these processes shall be controlled in such manner as to effectively abate any objectionable odor nuisance. In the event that the rendering processes of more than one company are contributing to the objectionable odor nuisance, abatement shall be deemed effective when the odor concentration from each process is not more than 25 odor units/cubic foot as determined by Mills adaptation of ASTM D-1391-57.

An objectionable odor nuisance exists when a trained inspector, upon the receipt of a complaint from one resident or property owner in the area affected shall determine that these odors cause a nuisance as outlined as follows:

Objectionable Odor Nuisance Determination: An objectionable odor nuisance exists:

On or adjacent to residential, recreational, institutional, retail sales, hotel or educational premises when odor is detectable in the ambient air after it is diluted with eight volumes of odor-free air as measured by the Scentometer;

On or adjacent to industrial premises when odor is detectable in the ambient air after it is diluted with twenty-four volumes of odor-free air as measured by the Scentometer;

On or adjacent to premises other than those above when odor is detectable in the ambient air after it is diluted with sixteen volumes of odor-free air as measured by the Scentometer;

When concurrent determinations made by three trained inspectors as outlined above in any given one hour period and at intervals of not less than fifteen minutes result in two positive determinations in each series of three determinations; and

Provided that any quantitative odor level measurement taken to arrive at a determination that an objectionable odor nuisance exists shall be at or beyond the property line or at or near places where people live or work.

SECTION 4. Chapter 17 of the Municipal Code of Chicago is hereby amended by adding thereto new Sections 17-2.67, 17-2.68 and 17-2.69 as follows:

17-2.67. No person shall cause or allow the emission of carbon monoxide into the atmosphere to exceed 200 ppm, corrected to 50 percent excess air from petroleum and petrochemical processes, sintering plants, blast furnaces, and basic oxygen furnaces. The carbon monoxide concentrations in an effluent stream shall be measured by the nondispersive infrared method or by other methods approved by the Department of Environmental Control.

17-2.68. The commissioner is hereby empowered to implement rules for controlling air pollution as promulgated by the State of Illinois Control Board set forth in Chapter 2, Part II, Rule 207, as amended from time to time.

17-2.69. (1) No person shall cause or allow the emission of fugitive particulate matter from any process, including any material handling or storage activity, that is visible by an observer looking generally toward the zenith at a point beyond the property line of the emission source.

(2) No person shall cause or allow the emission of fugitive particulate matter from any process, including any material handling or storage activity, in such a manner that the presence of such particulate matter shown to be larger than forty (40) microns (mean diameter) in size exists beyond the property line of the emission source.

REPORTS AND COMMUNICATIONS FROM CITY OFFICERS.

Referred—PROPOSED ORDINANCE TO AUTHORIZE FILING OF APPLICATION WITH FEDERAL INSURANCE ADMINISTRATION FOR CITY-WIDE ELIGIBILITY UNDER NATIONAL FLOOD INSURANCE PROGRAM.

Honorable Richard J. Daley, Mayor, transmitted the following communication, which was, together with the proposed ordinance transmitted therewith, *Referred to the Committee on Environmental Control:*

OFFICE OF THE MAYOR
CITY OF CHICAGO

June 12, 1974.

To the Honorable, The City Council of the City of Chicago:

LADIES AND GENTLEMEN—I transmit herewith an ordinance authorizing the filing of an application with the Federal Insurance Administration for City-wide eligibility under the National Flood Insurance Program.

Private insurance carriers have generally refused to write insurance coverage for damage due to high lake levels or areawide flooding following torrential rains. Insurance coverage is available under the National Flood Insurance Program only within an "eligible community" as the same is defined in the Act, and upon application for such eligibility by its governing body.

Approval of an application for eligibility will make available to home owners, tenants and businessmen Federally subsidized flood insurance to cover property and contents damaged by flood.

Your favorable consideration of this ordinance will be appreciated.

Very truly yours,
(Signed) RICHARD J DALEY,
Mayor.

Referred—PROPOSED ORDINANCE TO DESCRIBE RESPONSIBILITIES OF DEPT. OF BUILDINGS AND DEPT. OF DEVELOPMENT AND PLANNING IN CONJUNCTION WITH NATIONAL FLOOD INSURANCE PROGRAM.

The following is said ordinance as passed:

WHEREAS, The Commission on Chicago Historical and Architectural Landmarks, pursuant to Chapter 21, Section 21-64, of the Municipal Code of Chicago, has determined that the structure known as the Francis J. Dewes House, located at No. 503 W. Wrightwood Avenue, Chicago, Illinois, is worthy of designation as a "Chicago Landmark"; and

WHEREAS, On the basis of a careful consideration of the architecture and history of the structure, the Commission has found that it meets the following criteria as set forth in Chapter 21, Section 21-64 (b) of the Municipal Code of Chicago:

1) Its character, interest or value as part of the development, heritage or cultural characteristics of the City of Chicago, State of Illinois or the United States.

WHEREAS, The Dewes House is intricately linked with the development of Chicago, as evidence of the European heritage of many of its citizens; and

WHEREAS, Within its walls, the Francis J. Dewes House mirrors part of the history of Chicago; it reveals the excellence of crafts nearly forgotten in this age of formica, vinyl, plate glass, steel, and poured concrete, and which represents not just an architectural style of baroque design in Old World elegance, but which historically reflects the period of individuals whose lives and fortunes were built and developed in this city in the late eighteen hundreds; and

WHEREAS, The unusual architectural features of the Dewes House express a near-forgotten life style in Chicago around the turn of the century in the unabashed and unembarrassed, splendid architecture; and it captures in stone and iron the whole feeling of the age of its people—the self-made men, fantastic fortunes made and lost; and

WHEREAS, The Francis J. Dewes House is virtually unique in Chicago, as a complete expression of a distinctive style of architecture; and

WHEREAS, Long familiar to residents of Lincoln Park, the Francis J. Dewes House stands today in sharp contrast to the modern buildings which surround it; and

WHEREAS, The Commission has concluded that the Francis J. Dewes House is truly important to Chicago, and deserves to be preserved, protected, enhanced, rehabilitated and perpetuated; and the Commissioner of Development and Planning of the City of Chicago and the City Council Committee on Cultural and Economic Development have concurred in the Commission's recommendation that the Francis J. Tribute Paid to Late Patrolman Robert J. Strugala.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council transmitted the following proposed resolution:

WHEREAS, Almighty God, in His Infinite Wisdom, has called to his eternal reward on June 16, 1974, Robert J. Strugala, a patrolman in the Chicago Police Department; and

WHEREAS, Patrolman Strugala was recognized throughout the Chicago Police Department as an exceptional policeman, exercising that professionalism and devotion to duty which serves to regenerate, support and continue the high standards of the Chicago Police Department. The annals of bravery are enhanced by the fine police work accomplished by Patrolman Strugala who was fatally wounded in a gun battle in a West Side tavern. While Patrolman Strugala and his partner were on routine patrol, stopping at a red light in front of a tavern, they heard shots from within. The officers drew their revolvers and entered the tavern. Officer Strugala entered through the front door, and drew a barrage of gunfire. His partner entered through the side entrance and was wounded by four shots; and

WHEREAS, Patrolman Strugala had been on the Chicago Police Force since March 19, 1973. He had received four Honorable Mentions; and

WHEREAS, Officer Strugala attended St. Casimer Grammar School and Holy Trinity High School in Chicago. He received an Honorable Discharge from the United States Marine Corps in 1967; and

WHEREAS, Patrolman Strugala did not sacrifice his life in vain, but serves as an heroic example of all policemen who choose their careers with full knowledge that their service might at any moment demand the supreme sacrifice. We are again impressed with a greater appreciation of the valor of our City's policemen, who are called upon routinely to face hazardous situations and circumstances similar to that which took place involving this patrolman, now, therefore,

Be It Resolved, That the Mayor and members of the City Council of the City of Chicago, in meeting assembled this 26th day of June 1974, hereby express their deep regret at the passing of Robert Strugala and extend their heartfelt condolences to his widow, Christine; and

Be It Further Resolved, That a suitable copy of this memorial resolution be presented to Christine Strugala, widow of Robert Strugala.

WHEREAS, John P. Downes served as state representative from the 28th District for sixteen years. He served in the 70th, 71st, 72nd, 73rd, 74th, 75th, 76th and 77th General Assembly; and

WHEREAS, Mr. Downes held a series of important and responsible positions with the City during his years as representative, including supervisor of revenue; and

WHEREAS, John P. Downes served his community in numerous worthwhile activities during his entire life. Mr. Downes was a member of the South Branch Elks, the Loyal Order of the Moose, and the Knights of Columbus. He was past Grand Knight of the Ancient Order of Hibernians, Lodge No. 52, past Grand Knight of the Fort Dearborn Council No. 773 of the Knights of Columbus, and Treasurer of St. Ethelreda Holy Name Society; now, therefore,

(a) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: employment; up-grading; demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for

(b) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin.

(c) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided by the agency Contracting Officer, advising the labor union or workers' representative of the Contractor's commitments under this Equal Opportunity clause, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(d) The Contractor will comply with all provisions of Executive Order No. 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(e) The Contractor will furnish all information and reports required by Executive Order No. 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the contracting agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(f) In the event of the Contractor's non-compliance with the Equal Opportunity clause of this contract or with any of the said rules, regulations, or orders, this contract may be cancelled, terminated or suspended in whole or in part and the Contractor may be decleared ineligible for further Government contracts in accordance with procedures authorized in Executive Order No. 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(g) The Contractor will include the provisions of paragraphs (a) through (g) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order No. 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any subcontract or purchase order as the contracting agency may direct as a means of enforcing such provisions including sanctions for non-compliance; Provided, however, that in the event the Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the contracting agency, the Contractor may request the United States to enter into such litigation to protect the interests of the United States. (FPR 1-12.803-2)

5. LISTING OF EMPLOYMENT OPENINGS

(This clause is applicable pursuant to 41 CFR 50-250 if this contract is for $10,000 or more and will generate 400 or more man-days of employment.)

(a) The Contractor agrees that all employment openings of the Contractor which exist at the time of the execution of this contract and those which occur during the performance of this contract, including those not generated by this contract and including those occurring at an establishment of the Contractor other than the one wherein the contract is being performed but excluding those of independently operated corporate affiliates, shall, to the maximum extent feasible, be offered for listing at an appropriate local office of the State employment service system wherein the opening occurs and to provide such periodic reports to such local office regarding employment openings and hires as may be required.

(b) Listing of employment openings with the employment service system pursuant to this clause shall be made at least concurrently with the use of any other recruitment source or effort and shall involve only the normal obligations which attach to the placing of a bona fide job order but does not require the hiring of any job applicant referred by the employment service system.

(c) The periodic reports required by paragraph (a) of this clause, shall be filed at least quarterly with the appropriate local office or, where the Contractor has more than one establishment in a State, with the central office of that State employment service. Such reports shall indicate for each establishment the number of individuals who were hired during the reporting period and the number of hires who were veterans who served in the Armed Forces on or after August 5, 1964, and who received other than a dishonorable discharge. The Contractor shall maintain copies of the reports submitted until the expiration of 1 year after final payment under the contract, during which time they shall be made available, upon request, for examination by any authorized representatives of the Contracting Officer or of the Secretary of Labor.

(d) Whenever the Contractor becomes contractually bound to the listing provisions of this clause, he shall advise the employment service system in each State wherein he has establishments of the name and location of each such establishment in the State. As long as the Contractor is

contractually bound to these provisions and has so advised the State employment service system, there is no need to advise the State system of subsequent contracts. The Contractor may advise the State systems when it is no longer bound by this contract clause.

(e) This clause does not apply (1) to the listing of employment openings which occur outside of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, and the Virgin Islands, and (2) to contracts with State and local governments.

(f) This clause does not apply to openings which the Contractor proposes to fill from within his own organization or to fill pursuant to a customary and traditional employer-union hiring arrangement. This exclusion does not apply to a particular opening once an employer decides to consider applicants outside of his own organization or employer-union arrangement for that opening.

(g) As used in this clause:

(1) "All employment openings" includes, but is not limited to, openings which occur in the following job categories: Production and nonproduction; plant and office; laborers and mechanics; supervisory and nonsupervisory; technical; and executive, administrative, and professional openings which are compensated on a salary basis of less than $18,000 per year. (3) "Openings which the Contractor proposes to fill from within his own organization or to fill pursuant to a customary and traditional employer-union hiring arrangement" means employment openings for which no consideration will be given to persons outside the Contractor's organization (including any affiliates, subsidiaries, and parent companies) or outside of a special hiring arrangement which is part of the customary and traditional employment relationship which exists between the Contractor and representatives of his employees and includes any openings which the Contractor proposes to fill from regularly established "recall" or "rehire" lists or from union hiring halls.

(4) "Man-day of employment" means any day during which an employee performs more than 1 hour of work.

(h) The Contractor agrees to place this clause (excluding this paragraph (h)) in any subcontract directly under this contract. (FPR 1-12.1102-2)

6. CONVICT LABOR

In connection with the performance of work under this contract, the Contractor agrees not to employ any person undergoing sentence of imprisonment at hard labor. (FPR 1-12.203)

(FPR 1-7.101-19)

8. COVENANT AGAINST CONTINGENT FEES

The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warranty the Government shall have the right to annul this contract without liability or in its discretion to deduct from the contract price or consideration, or otherwise recover, the full amount of such commission, percentage, brokerage, or contingent fee. (FPR 1-1.503)

10. UTILIZATION OF LABOR SURPLUS AREA CONCERNS (CONTINUED)

The Contractor agrees to use his best efforts to place his subcontracts in accordance with this policy.

(b) In complying with paragraph (a) of this clause and with paragraph (b) of the clause of this contract entitled "Utilization of Small Business Concerns", the Contractor in placing his subcontracts shall observe the following order of preference: (1) certified-eligible concerns with a first preference which are also small business concerns; (2) other certified-eligible concerns with a first preference; (3) certified-eligible concerns with a second preference which are also small business concerns; (4) other certified-eligible concerns with a second preference; (5) persistent or substantial labor surplus area concerns which are also small business concerns; (6) other persistent or substantial labor surplus area concerns; and (7) small business concerns which are not labor surplus area concerns. (FPR 1-1.805-3)

11. UTILIZATION OF MINORITY BUSINESS ENTERPRISES

(a) It is the policy of the Government that minority business enterprises shall have the maximum practicable opportunity to participate in the performance of Government contracts.

(b) The Contractor agrees to use his best efforts to carry out this policy in the award of his subcontracts to the fullest extent consistent with the efficient performance of this contract. As used in this contract, the term "minority business enterprise" means a business, at least 50 percent of which is owned by minority group members or, in case of publicly owned businesses, at least 51 percent of the stock of which is owned by minority group members. For the purposes of this definition, minority group members are Negroes, Spanish-speaking American persons, American-Orientals, American-Indians, American-Eskimos, and American Aleuts. Contractors may rely on written representations by subcontractors regarding their status as minority business enterprises in lieu of an independent investigation. (FPR 1-1310-2(a))

12. CONTRACTING OFFICER'S TECHNICAL REPRESENTATIVE (COTR)

(a) The Contracting Officer's Technical Representative (COTR) is responsible for the technical aspects of the project and technical liaison with the Contractor. The COTR is also responsible for the final inspection and acceptance of all the work required under the contract, including the review and approval of any and all reports, and such other responsibilities as may be specified in the contract.

(b) The COTR is not authorized to make any commitments or otherwise obligate the Government or authorize any changes which affect the contract price, terms or conditions. Any Contractor requests for changes shall be referred to the Contracting Officer directly or through the COTR. No such changes shall be made without the expressed prior authorization of the Contracting Officer. The COTR may designate assistant COTR's to act for him by naming such assistants in writing and transmitting a copy of such designation through the Contracting Officer to the Contractor.

(c) The name and address of the COTR is included in the contract document. The COTR may be changed by the Government at any time, but notification of the change, including the name and address of the successor COTR, will be promptly provided to the Contractor by the Contracting Officer in writing. (DOC MAR 72)

13. ASSIGNMENT OF CLAIMS

(a) Pursuant to the provisions of the Assignment of Claims Act of 1940, as amended (31 U.S.C. 203, 41 U.S.C. 15), if this contract provides for payments aggregating $1,000 or more, claims for moneys due or to become due the Contractor from the Government under this contract may be assigned to a bank, trust company, or other financing institution, including any Federal lending agency, and may thereafter be further assigned and reassigned to any such institution. Any such assignment or reassignment shall cover all amounts payable under this contract and not already paid, and shall not be made to more than one party, except that any such assignment or reassignment may be made to one party as agent or trustee for two or more parties participating in such financing. Unless otherwise provided in this contract, payments to an assignee of any moneys due or to become due under this contract shall not, to the extent provided in said Act, as amended, be subject to reduction or setoff. (The preceding sentence applies only if this contract is made in time of war or national emergency as defined in said Act and is with the Department of Defense, the General Services Administration, the Atomic Energy Commission, the National Aeronautics and Space Administration, the Federal Aviation Agency, or any other department or agency of the United States designated by the President pursuant to Clause 4 of the proviso of Section 1 of

13. ASSIGNMENT OF CLAIMS (CONT.)

the Assignment of Claims Act of 1940, as amended by the Act of May 15, 1951, 65 Stat. 41.)

(b) In no event shall copies of this contract or of any plans, specifications, or other similar documents relating to work under this contract, if marked "Top Secret", "Secret", or "Confidential", be furnished to any assignee of any claim arising under this contract or to any other person not entitled to receive the same. However, a copy of any part or all of this contract so marked may be furnished, or any information contained therein may be disclosed, to such assignee upon the prior written authorization of the Contracting Officer. (FPR 1-30.703)

14. FEDERAL, STATE, AND LOCAL TAXES

(a) Except as may be otherwise provided in this contract, the contract price includes all applicable Federal, State, and local taxes and duties.

(b) Nevertheless, with respect to any Federal excise tax or duty on the transactions or property covered by this contract, if a statute, court decision, written ruling, or regulation takes effect after the contract date, and - -

(1) Results in the Contractor being required to pay or bear the burden of any such Federal excise tax or duty or increase in the rate thereof which would not otherwise have been payable on such transactions or property, the contract price shall be increased by the amount of such tax or duty or rate increase: PROVIDED, That the Contractor, if requested by the Contracting Officer, warrants in writing that no amount for such newly imposed Federal excise tax or duty or rate increase was included in the contract price as a contingency reserve or otherwise; or

(2) Results in the Contractor not being required to pay or bear the burden of, or in his obtaining a refund or drawback of, any such Federal excise tax or duty which would otherwise have been payable on such transactions or property or which was the basis of an increase in the contract price, the contract price shall be decreased by the amount of the relief, refund, or drawback, or that amount shall be paid to the Government, as directed by the Contracting Officer. The contract price shall be similarly decreased if the Contractor, through his fault or negligence or his failure to follow instructions of the Contracting Officer, is required to pay or bear the burden of, or does not obtain a refund or drawback of, any such Federal excise tax or duty.

(c) No adjustment pursuant to paragraph (b) above will be made under this contract unless the aggregate amount thereof is or may reasonably be expected to be over $100.

(d) As used in paragraph (b) above, the term "contract date" means the date set for the bid opening, or if this is a negotiated contract, the date of this contract. As to additional supplies or services procured by modification to this contract, the term "contract date" means the date of such modification.

(e) Unless there does not exist any reasonable basis to sustain an exemption, the Government, upon request of the Contractor, without further liability, agrees, except as otherwise provided in this contract, to furnish evidence appropriate to establish exemption from any tax which the Contractor warrants in writing was excluded from the contract price. In addition, the Contracting Officer may furnish evidence to establish exemption from any tax that may, pursuant to this clause, give rise to either an increase or decrease in the contract price. Except as otherwise provided in this contract, evidence appropriate to establish exemption from duties will be furnished only at the discretion of the Contracting Officer.

(f) The Contractor shall promptly notify the Contracting Officer of matters which will result in either an increase or decrease in the contract price, and shall take action with respect thereto as directed by the Contracting Officer. (FPR 1-11.401-1(c))

15. DISPUTES

(a) Except as otherwise provided in this contract, any dispute concerning a question of fact arising under this contract which is not disposed of by agreement shall be decided by the Contracting Officer, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the Contractor. The decision of the Contracting Officer shall be final and conclusive unless within 30 days from the date of receipt of such copy, the Contractor mails or otherwise furnishes to the Contracting Officer a written appeal addressed to the Secretary. The decision of the Secretary or his duly authorized representative for the determination of such appeals shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this clause, the Contractor shall be afforded an opportunity to be heard and to offer evidence in support of its appeal. Pending final decision of a dispute hereunder, the Contractor shall proceed diligently with the performance of the contract and in accordance with the Contracting Officer's decision.

(b) This "Disputes" clause does not preclude consideration of law questions in connection with decisions provided for in paragraph (a) above; PROVIDED, That nothing in this contract shall be construed as making final the decision of any administrative official, representative, or board on a question of law. (FPR 1-7.101-12)

16. PAYMENT OF INTEREST ON CONTRACTOR'S CLAIMS

(a) If an appeal is filed by the contractor from a final decision of the contracting officer under the disputes clause of this contract, denying a claim arising under the contract, simple interest on the amount of the claim finally determined owed by the Government shall be payable to the contractor. Such interest shall be at the rate determined by the Secretary of the Treasury pursuant to Public Law 92-41, 85 Stat. 97, from the date the contractor furnishes to the Contracting Officer his written appeal to the date of (1) a final judgment by a court of competent jurisdiction, or (2) mailing to the contractor of a supplemental agreement for execution either confirming completed negotiations between the parties or carrying out a decision of a board of contract appeals.

(b) Notwithstanding (a), above, (1) interest shall be applied only from the date payment was due, if such date is later than the filing of appeal, and (2) interest shall not be paid for any period of time that the contracting officer determines the contractor has unduly delayed in pursuing his remedies before a board of contract appeals or a court of competent jurisdiction. 1. CHANGES

(a) The Contracting Officer may at any time, by a written order, and without notice to the sureties, make changes, within the general scope of this contract, in the services to be performed, including reporting requirements related thereto. No oral statement of any person, and no written statement of anyone other than the Contracting Officer, or his authorized representative, shall modify or otherwise affect the terms of this contract.

(b) If any such change causes an increase or decrease in the cost of, or the time required for, the performance of any services under this contract, whether changed or not changed by any such order, an equitable adjustment shall be made in the contract price, performance period, or both, and the contract shall be modified in writing accordingly.

(c) The Contractor shall, within 30 days after receipt of a written change order, or within such additional period or periods as may be granted by the Contracting Officer in writing or otherwise approved by the Government, submit a written statement as to whether or not the change order has increased or decreased or will increase or decrease the cost of or the time required for the performance of any part of the work under this contract, whether changed or not changed by any such order, with supporting details. The Contractor shall promptly provide such additional supporting details as may be requested by the Contracting Officer. In the event of failure of the Contractor to submit such written statement or details, if required, within the time allowed, the Contracting Officer may determine, on the basis of information available to him, the extent of applicable equitable adjustments, if any, but the reservation of such right of determination shall not excuse the Contractor from complying with the submission requirement.

(d) Subject to the provisions of paragraph (c) above, the Contractor and the Contracting Officer may agree upon the equitable adjustment to be made in the contract price or performance period, or both, and the contract shall be modified in writing accordingly. In the event of the failure of the parties to agree upon the equitable adjustment, the Contracting Officer shall determine, on the basis of information available to him, the equitable adjustment, if any. Any negotiation or determination of price adjustment relating to cost shall be in accordance with the contract cost principles and procedures in Part 1-15 of the Federal procurement regulations (41 CFR 1-15) as in effect on the date of this contract.

(e) Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes." However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed. (DOC Mar 72)

2. INSPECTION

The Government shall have the right to inspect the work and activities under this contract, including, without limitation, premises where any Government property may be located, at such reasonable times and in such manner as it may deem appropriate and the Contractor shall afford the Government proper facilities and assistance for such inspection. (DOC Mar 72)

3. RIGHTS IN DATA

(a) The term "Subject Data" as used herein includes writings, sound recordings, pictorial reproductions, drawings, or other graphical representations, and works of any similar nature (whether or not copyrighted) which are furnished by the Contractor under this contract. The term does not include information incidental to contract administration.

(b) All "Subject Data" first produced in the performance of this contract shall be the sole property of the Government. The Contractor agrees not to assert any rights at common law or equity and not to establish any claim to statutory copyright in such Data. The Contractor shall not publish or reproduce such data in whole or in part, or in any manner or form, nor authorize others so to do, without the written consent of the Contracting Officer's Technical Representative until such time as the Government may have released such data to the public.

(c) The Contractor agrees to grant and does hereby grant to the Government and to its officers, agents, and employees acting within the scope of their official duties, a royalty-free, nonexclusive, and irrevocable license throughout the world (1) to publish, translate, reproduce, deliver, perform, use, and dispose of, in any manner, any and all subject data not first produced or composed in the performance of this contract, but which is incorporated in the work furnished under this contract; and (2) to authorize others so to do.

(d) The Contractor shall indemnify and save and hold harmless the Government, its officers, agents, and employees acting within the scope of their official duties against any liability, including costs and expenses, (1) for violation of proprietary rights, copyrights or right of privacy, arising out of the publication, translation,

3. RIGHTS IN DATA (CONT.)

reproduction, delivery, performance, use, or disposition of any subject data furnished under this contract, or (2) based upon any libelous or other unlawful matter contained in such data.

(e) Paragraphs (c) and (d) above are not applicable to material furnished to the Contractor by the Government and incorporated in the subject data furnished under the contract; however, such incorporated material shall be identified by the Contractor at the time of furnishing such data.

(f) The Contractor shall not affix any restrictive markings upon any subject data. (DOC Mar 72)

4. DISSEMINATION OF CONTRACT INFORMATION

Unless otherwise specified in this contract, the Contractor shall not publish, permit to be published, or distribute for public consumption, any information, oral or written, concerning the results of, or conclusions made pursuant to, performance under this contract without prior written consent of the Contracting Officer, until such time as the Government may have released such information to the public. (DOC Mar 72)

5. COLLECTION OF INFORMATION

(a) In the event the performance of this contract requires the collection of information upon identical items from ten or more respondents, the Contractor shall, prior to use, obtain from the Contracting Officer's Technical Representative (COTR), approval of the use of report forms, questionnaire, survey plan or other document which is intended to secure such information. The COTR shall, prior to issuing this approval, secure the approval of the Office of Management and Budget for the Contractor's plan or report form in accordance with Departmental Administrative procedures. In the event the performance of the work under this contract is delayed in securing approval of the subject documents, through no fault of the Contractor, the Contractor shall be entitled to an equitable adjustment of the time required for performance of this contract.

(b) This requirement for approval shall not apply to information which is not specifically required by the contract to be collected, but which is sought by the Contractor as incidental to or in support of his contract work. The Contractor, if collecting information on his own initiative, shall not in any way represent that the information is being collected by, or for, the Federal Government. (DOC Mar 72)

6. SUBCONTRACTING

Except as provided in the Schedule or in the Contractor's proposal incorporated in this contract, the Contractor shall not subcontract any part of the work under this contract without the specific written approval of the Contracting Officer. This clause does not apply to the purchase of supplies, materials, equipment, or incidental support services. (DOC Mar 72)

7.a TERMINATION FOR CONVENIENCE OF THE GOVERNMENT (OTHER THAN EDUCATIONAL AND NON-PROFIT)

(a) The performance of work under this contract may be terminated by the Government in accordance with this clause in whole, or from time to time in part, whenever the Contracting Officer shall determine that such termination is in the best interest of the Government. Any such termination shall be effected by delivery to the Contractor of a Notice of Termination specifying the extent to which performance of work under the contract is terminated, and the date upon which such termination becomes effective.

(b) After receipt of a Notice of Termination, and except as otherwise directed by the Contracting Officer, the Contractor shall:

(1) Stop work under the contract on the date and to the extent specified in the Notice of Termination;

(2) Place no further orders or subcontracts for materials, services, or facilities, except as may be necessary for completion of such portion of the work under the contract as is not terminated;

(3) Terminate all orders and subcontracts to the extent that they relate to the performance of work terminated by the Notice of Termination;

(4) Assign to the Government in the manner, at the times, and to the extent directed by the Contracting Officer, all of the right, title, and interest of the Contractor under the orders and subcontracts so terminated, in which case the Government shall have the right, in its discretion, to settle or pay any or all claims arising out of the termination of such orders and subcontracts;

(5) Settle all outstanding liabilities and all claims arising out of such termination of orders and subcontracts, with the approval or ratification of the Contracting Officer, to the extent he may require, which approval or ratification shall be final for all the purposes of this clause;

(6) Furnish to the Government, at the time and as directed by the Contracting Officer,

7.a TERMINATION FOR CONVENIENCE OF THE GOVERNMENT (OTHER THAN EDUCATIONAL AND NON-PROFIT)(CONT.)

the completed or partially completed "Subject Data," as defined in the "Rights in Data" clause, and reports which would have been required to be furnished to the Government if this contract had been completed.

(7) Complete performance of such part of the work as shall not have been terminated by the Notice of Termination.

(c) After a receipt of a Notice of Termination, the Contractor shall submit to the Contracting Officer his termination claim, in the form and with certification prescribed by the Contracting Officer. Such claim shall be submitted promptly but in no event later than one (1) year from the effective date of termination, unless one or more extensions in writing are granted by the Contracting Officer upon request of the Contractor made in writing within such one-year period or authorized extension thereof. However, if the Contracting Officer determines that the facts justify such action, he may receive and act upon any such termination claim at any time after such one-year period or any extension thereof. Upon failure of the Contractor to submit his termination claim within the time allowed, the Contracting Officer may, subject to any review required by the contracting agency's procedures in effect as of the date of execution of this contract, determine, on the basis of information available to him, the amount, if any, due to the Contractor by reason of the termination and shall thereupon pay to the Contractor the amount so determined.

(d) Subject to the provisions of paragraph (c), and subject to any review required by the contracting agency's procedures in effect as of the date of execution of this contract, the Contractor and the Contracting Officer may agree upon the whole or any part of the amount or amounts to be paid to the Contractor by reason of the total or partial termination of work pursuant to this clause, which amount or amounts may include a reasonable allowance for profit or adjustment for loss, on work done: Provided, That such agreed amount or amounts, exclusive of settlement costs, shall not exceed the total contract price as reduced by the contract price of work not terminated. The contract shall be amended accordingly, and the Contractor shall be paid the agreed amount. Nothing in paragraph (e) of this clause, prescribing the amount to be paid to the Contractor in the event of failure of the Contractor and the Contracting Officer to agree upon the whole amount to be paid to the Contractor by reason of the termination to work pursuant to this clause, shall be deemed to limit, restrict, or otherwise determine or affect the amount or amounts which may be agreed upon to be paid to the Contractor pursuant to this paragraph (d).

(e) In the event of the failure of the Contractor and the Contracting Officer to agree as provided in paragraph (d) upon the whole amount to be paid to the Contractor by reason of the termination of work pursuant to this clause, the Contracting Officer shall determine, on the basis of information available to him, the amount, if any, due to the Contractor by reason of the termination and shall pay to the Contractor the amounts determined as follows:

(1) The total of --

(i) The costs incurred in the performance of the work terminated, including initial costs and preparatory expense allocable thereto;

(ii) The cost of settling and paying claims arising out of the termination of work under subcontracts or orders, as provided in paragraph (b)(5) above, which are properly chargeable to the terminated portion of the contract (exclusive of amounts paid or payable on account of supplies or materials delivered or services furnished by subcontractors or vendors prior to the effective date of the Notice of Termination, which amounts shall be included in the costs payable under (i) above; and

(iii) A sum, as profit on (i) above, determined by the Contracting Officer pursuant to Subpart 1-8.303 of the Federal Procurement Regulations (41 CFR 1-8.303), in effect as of the date of execution of this contract, to be fair and reasonable: Provided, however, That if it appears that the Contractor would have sustained a loss on the entire contract had it been completed, no profit shall be included or allowed under this subdivision (iii) and an appropriate adjustment shall be made reducing the amount of the settlement to reflect the indicated rate of loss determined by the Contracting Officer pursuant to Subpart 1-8.303 of the Federal Procurement Regulations (41 CFR 1-8.303), in effect as of the date of execution of this contract; and

(2) The reasonable costs of settlement, including accounting, legal, clerical, and other expenses reasonably necessary for the preparation of settlement claims and supporting data with respect to the terminated portion of the contract and for the termination and settlement of subcontracts thereunder, together with reasonable storage, transportation, and other costs incurred in connection with the protection or disposition of property allocable to this contract.

The total sum to be paid to the Contractor under (1) of this paragraph (e) shall not exceed the total contract price as reduced by the amount of payments otherwise made and as further reduced by the contract price of work not terminated.

7.a TERMINATION FOR CONVENIENCE OF THE GOVERNMENT (OTHER THAN EDUCATIONAL AND NON-PROFIT) (CONT.)

(f) Any determination of costs under paragraph (c) or (e) hereof shall be governed by the principles for consideration of costs set forth in Subpart 1-15.2 of the FPR (41 CFR 1-15.2) as in effect on the date of this contract.

(g) The Contractor shall have the right to appeal, under the clause of this contract entitled "Disputes", from any determination made by the Contracting Officer under paragraph (c) or (e) above, except that, if the Contractor has failed to submit his claim within the time provided in paragraph (c) above and has failed to request extension of such time, he shall have no such right of appeal. In any case where the Contracting Officer has made a determination of the amount due under paragraph (c) or (e) above, the Government shall pay to the Contractor the following: (1) if there is no right of appeal hereunder or if no timely appeal has been taken, the amount so determined by the Contracting Officer; or (2) if any appeal has been taken, the amount finally determined on such appeal.

(h) In arriving at the amount due the Contractor under this clause, there shall be deducted (1) all unliquidated advance or other payments on account theretofore made to the Contractor, applicable to the terminated portion of this contract; (2) any claim which the Government may have against the Contractor in connection with this contract; and (3) the agreed price for, or the proceeds of sale of, any materials, supplies, or other things acquired by the Contractor or sold, pursuant to the provisions of this clause, and not otherwise recovered by or credited to the Government.

(i) If the termination hereunder be partial, prior to the settlement of the terminated portion of this contract, the Contractor may file with the Contracting Officer a request in writing for an equitable adjustment of the price or prices specified in the contract relating to the continued portion of the contract (the portion not terminated by the Notice of Termination), and such equitable adjustment as may be agreed upon shall be made in such price or prices.

(j) The Government may from time to time, under such terms and conditions as it may prescribe, make partial payments and payments on accounts against costs incurred by the Contractor in connection with the terminated portion of this contract whenever, in the opinion of the Contracting Officer, the aggregate of such payments shall be within the amount to which the Contractor will be entitled hereunder. If the total of such payments is in excess of the amount finally agreed or determined to be due under this clause, such excess shall be payable by the Contractor to the Government upon demand, together with interest computed at the rate of 6% per annum for the period from the date such excess payment is received by the Contractor to the date on which such excess is repaid to the Government: Provided, however, that no interest shall be charged with respect to any such excess payment attributable to a reduction in the Contractor's claim by reason of retention or other disposition of termination inventory until ten (10) days after the date of such retention or disposition, or such later date as determined by the Contracting Officer by reason of the circumstances.

(k) Unless otherwise provided for in this contract, or by applicable statute, the Contractor, from the effective date of termination and for a period of three (3) years after final settlement under this contract, shall preserve and make available to the Government at all reasonable times at the office of the Contractor, but without direct charge to the Government, all his books, records, documents, and other evidence bearing on the costs and expenses of the Contractor under this contract and relating to the work terminated hereunder, or, to the extent approved by the Contracting Officer, photographs, microphotographs, or other authentic reproduction thereof. (DOC Mar 72)

7.b TERMINATION FOR CONVENIENCE OF THE GOVERNMENT (EDUCATIONAL AND NON-PROFIT)

(a) The performance of work under this contract may be terminated, in whole or from time to time in part, by the Government whenever for any reason the Contracting Officer shall determine that such termination is in the best interest of the Government. Termination of work hereunder shall be effected by delivery to the Contractor of a Notice of Termination specifying the extent to which performance of work under the contract is terminated and the date upon which such termination becomes effective.

(b) After receipt of the Notice of Termination the Contractor shall cancel his outstanding commitments hereunder covering the procurement of materials, supplies, equipment, and miscellaneous items. In addition, the Contractor shall exercise all reasonable diligence to accomplish the cancellation or diversion of his outstanding commitments covering personal services and extending beyond the date of such termination to the extent that they relate to the performance of any work terminated by the notice. With respect to such canceled commitments the Contractor agrees to (1) settle all outstanding liabilities and all claims arising out of such cancellation of commitments, with the approval or ratification of the Contracting Officer, to the extent he may require, which approval or ratification shall be final for all purposes of this clause, and (2) assign to the Government, in the manner, at the time, and to the extent directed by the Contracting Officer, all of the right, title, and interest of the Contractor under the orders and subcontracts so terminated, in which case the Government shall have the right, in its discretion, to settle or pay any or all claims arising out of the termination of such orders and subcontracts.

7.b TERMINATION FOR CONVENIENCE OF THE GOVERNMENT (EDUCATIONAL AND NON-PROFIT) (CONT.)

(c) The Contractor shall submit his termination claim to the Contracting Officer promptly after receipt of a Notice of Termination, but in no event later than one year from the effective date thereof, unless one or more extensions in writing are granted by the Contracting Officer upon written request of the Contractor within such one-year period or authorized extension thereof. Upon failure of the Contractor to submit his termination claim within the time allowed, the Contracting Officer may determine, on the basis of information available to him, the amount, if any, due to the Contractor by reason of the termination and shall thereupon pay to the Contractor the amount so determined.

(d) Any determination of costs under paragraph (c) shall be governed by the cost principles set forth in the Department of Commerce's "Principles for Determining Costs Applicable to Grants and Contracts with Non-Profit Organizations", as in effect on the date of this contract, except that if the Contractor is an educational institution, the determination shall be governed by the cost principles set forth in Subpart 1-15.3 of the Federal Procurement Regulations (41 CFR 1-15.3), as in effect on the date of this contract, and the terms of this contract.

(e) Subject to the provisions of paragraph (c) above, and subject to any review required by the contracting agency's procedures in effect as of the date of execution of this contract, the Contractor and the Contracting Officer may agree upon the whole or any part of the amount or amounts to be paid to the Contractor by reason of the termination under this clause, which amount or amounts may include any reasonable cancellation charges thereby incurred by the Contractor and any reasonable loss upon outstanding commitments for personal services which he is unable to cancel: Provided, however, that in connection with any outstanding commitments for personal services which the Contractor is unable to cancel, the Contractor shall have exercised reasonable diligence to divert such commitments to his other activities and operations. Any such agreement shall be embodied in an amendment to this contract, and the Contractor shall be paid the agreed amount.

(f) If the total of all payments to the Contractor in connection with the terminated portion of this contract is in excess of the amount finally agreed or determined to be due under this clause, such excess shall be payable by the Contractor to the Government upon demand: Provided, that if such excess is not so paid upon demand, interest thereon shall be payable by the Contractor to the Government at the rate of 6% per annum, beginning 30 days from the date of such demand.

(g) The Contractor agrees to transfer title to the Government and deliver in the manner, at the times, and to the extent, if any, directed by the Contracting Officer, such information and items which, if the contract had been completed, would have been required to be furnished to the Government, including complete reports or partially completed plans and other information.

(h) Any disputes as to questions of fact which may arise hereunder shall be subject to the "Disputes" clause of this contract. (DOC Mar 72)

8. DEFAULT

(a) The Government may, subject to the provisions of paragraph (c) below, by written notice of default to the Contractor, terminate the whole or any part of this contract in any one of the following circumstances:

(1) If the Contractor fails to perform the services within the time specified herein or any extension thereof; or

(2) If the Contractor fails to perform any of the other provisions of this contract, or so fails to make progress as to endanger performance of this contract in accordance with its terms, and in either of these two circumstances does not cure such failure within a period of 10 days (or such longer period as the Contracting Officer may authorize in writing) after receipt of notice from the Contracting Officer specifying such failure.

(b) In the event the Government terminates this contract in whole or in part as provided in paragraph (a) of this clause, the Government may procure, upon such terms and in such manner as the Contracting Officer may deem appropriate, services similar to those so terminated, and the Contractor shall be liable to the Government for any excess costs for such similar services: Provided, that the Contractor shall continue the performance of this contract to the extent not terminated under the provisions of this clause.

(c) Except with respect to defaults of subcontractors, the Contractor shall not be liable for any excess costs if the failure to perform the contract arises out of causes beyond the control and without the fault or negligence of the Contractor. Such causes may include, but are not restricted to, acts of God or of the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and unusually severe weather; but in every case the failure to perform must be beyond the control and without the fault or negligence of the Contractor. If the failure to perform is caused by the default of a

8. DEFAULT (CONT.)

subcontractor, and if such default arises out of causes beyond the control of both the Contractor and subcontractor, and without the fault or negligence of either of them, the Contractor shall not be liable for any excess costs for failure to perform, unless the services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required delivery schedule or other performance requirements.

(d) If this contract is terminated as provided in paragraph (a) of this clause, the Government, in addition to any other rights provided in this clause, may require the Contractor to deliver to the Government, in the manner and to the extent directed by the Contracting Officer any of the completed or partially completed "Subject Data" as defined in the "Rights in Data" clause. The Government shall pay the Contractor the contract price, if separately stated, for completed services accepted by the Government and the amount agreed upon by the Contractor and the Contracting Officer for (1) completed services for which no separate price is stated; (2) partially completed work; and (3) Subject Data described above which is accepted by the Government. Failure to agree to such amount shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes."

(e) If, after notice of termination of this contract under the provisions of this clause, it is determined for any reason that the Contractor was not in default under the provisions of this clause, or that the default was excusable under the provisions of this clause, the rights and obligations of the parties shall, if the contract contains a clause providing for termination for convenience of the Government, be the same as if the notice of termination had been issued pursuant to such clause. If, after notice of termination of this contract under the provisions of this clause, it is determined for any reason that the Contractor was not in default under the provisions of this clause, and if this contract does not contain a clause providing for termination for convenience of the Government, the contract shall be equitably adjusted to compensate for such termination and the contract modified accordingly; failure to agree to any such adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes".

(f) The rights and remedies of the Government provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract.

(g) As used in paragraph (c) of this clause, the terms "subcontractor" and "subcontractors" mean subcontractor(s) at any tier. (DOC Mar 72)

9. KEY PERSONNEL

(a) It has been determined that the individual(s) named in the schedule of this contract are necessary for the successful performance of this contract. No diversion or replacement of these individual(s) shall be made by the Contractor without the written consent of the Contracting Officer: Provided, that the Contracting Officer may ratify in writing such diversion or replacement and such ratification shall constitute the consent of the Contracting Officer required by this clause.

(b) The Contractor agrees that whenever for any reason, one or more of these individual(s) are unavailable for performance under this contract, the Contractor agrees to replace such individual(s) with an individual(s) of substantially equal abilities and qualifications. In this connection, the Contractor shall submit to the COTR, in duplicate, a resume giving the full name, title, date and place of birth, qualifications, experience, and salary history, for all successor or new personnel prior to assignment of such personnel to perform work under the contract, so that the Contracting Officer may, on the advice of the COTR, decide whether or not such successor meets the qualifications of the personnel to be diverted or replaced, or in the case of new personnel, whether or not they are qualified to perform work assigned, and advise the Contractor accordingly. (DOC MAR 72)

10. DUPLICATION OF EFFORT

The Contractor hereby certifies that costs for work performed under this contract and any subcontract hereunder are not duplicative of any costs charged against any other Government contract, subcontract, or other Government source. The Contractor will include the provisions of this paragraph in every subcontract issued hereunder which exceeds $2,500. The Contractor agrees to advise the Contracting Officer, in writing, of any other Government contract or subcontract it has performed or is performing which involves work directly related to the purpose of this contract. (DOC MAR 72)

11. ACCESS TO RECORDS AND RIGHT TO AUDIT

The Contractor agrees that the Secretary of Commerce or his duly authorized representative shall, until the expiration of three years after final payment under this contract, or the time periods for the particular records specified in 41 CFR Part 1-20, whichever expires earlier, have access to and the right to examine any books, documents, papers, and records of the Contractor involving transactions related to this contract. The Contractor further agrees to require all subcontractors, if any, under this contract, to agree to the "Access to Records and Right to Audit" clause as provided herein for subcontracts in excess of $2,500. (DOC MAR 72)

ADDENDUM TO GENERAL PROVISIONS

The following clauses are added to the General and Additional General Provisions of this contract and appear in this addendum in lieu of the location indicated on the provisions content page.

A. GENERAL PROVISIONS:

PAYMENT OF INTEREST ON CONTRACTORS' CLAIMS

(a) If an appeal is filed by the contractor from a final decision of the contracting officer under the disputes clause of this contract, denying a claim arising under the contract, simple interest on the amount of the claim finally determined owed by the Government shall be payable to the contractor. Such interest shall be at the rate determined by the Secretary of the Treasury pursuant to Public Law 92-41, 85 Stat. 97, from the date the contractor furnishes to the contracting officer his written appeal to the date of (1) a final judgment by a court of competent jurisdiction, or (2) mailing to the contractor of a supplemental agreement for execution either confirming completed negotiations between the parties or carrying out a decision of a board of contract appeals.

(b) Notwithstanding (a), above, (1) interest shall be applied only from the date payment was due, if such date is later than the filing of appeal, and (2) interest shall not be paid for any period of time that the contracting officer determines the contractor has unduly delayed in pursuing his remedies before a board of contract appeals or a court of competent jurisdiction. (FPR 1-1.322(b))

B. ADDITIONAL GENERAL PROVISIONS:

COST ACCOUNTING STANDARDS

(a) Unless the Cost Accounting Standards Board has prescribed rules or regulations exempting the Contractor or this contract from standards, (P.L.91-379, August 15, 1970), the Contractor, in connection with this contract shall:

(1) By submission of a Disclosure Statement, disclose in writing his cost accounting practices as required by regulations of the Cost Accounting Standards Board. The required disclosures must be made prior to contract award unless the Contracting Officer provides a written notice to the Contractor authorizing postaward submission in accordance with regulations of the Cost Accounting Standards Board. The practices disclosed for this contract shall be the same as the practices currently disclosed and applied on all other contracts and subcontracts being performed by the Contractor and which contain this Cost Accounting Standards clause. If the Contractor has marked the Disclosure Statement to indicate that it contains trade secrets and commercial or financial information which is privileged and confidential, the Disclosure Statement will be protected and will not be released outside of the Government.

(2) Follow consistently the cost accounting practices disclosed pursuant to (1), above, in accumulating and reporting contract performance cost data concerning this contract. If any change in disclosure practices is made for the purposes of any contract or subcontract subject to Cost Accounting Standards Board requirements, the change must be applied prospectively to this contract, and the Disclosure Statement must be amended accordingly. If the contract price or cost allowance of this contract is affected by such changes, adjustment shall be made in accordance with subparagraph (a)(4) or (a)(5), below, as appropriate.

(3) Comply with all Cost Accounting Standards in effect on the date of award of this contract or if the Contractor has submitted cost or pricing data, on the date of final agreement on price as shown on the Contractor's signed certificate of current cost or pricing data. The Contractor shall also comply with any Cost Accounting Standard which hereafter becomes applicable to a contract or subcontract of the Contractor. Such compliance shall be required prospectively from the date of applicability to such contract or subcontract.

(4) (A) Agree to an equitable adjustment as provided in the Changes clause of this contract if the contract cost is affected by a Disclosure Statement change which the Contractor is required to make pursuant to (3), above. If the Contractor has not been required to file a Disclosure Statement but is required pursuant to (a)(3), above, to change an established practice, then an equitable adjustment shall similarly be agreed to.

(B) Negotiate with the Contracting Officer to determine the terms and conditions under which any Disclosure Statement change other than changes under (4)(A), above, may be made. A change to a Disclosure Statement may be proposed by either the Government or the Contractor, provided, however, that no agreement may be made under this provision that will increase costs paid by the United States under this contract.

(SEE REVERSE)

(5) Agree to an adjustment of the contract price or cost allowance, as appropriate, if he or a subcontractor fails to comply with an applicable Cost Accounting Standard or to follow any practice disclosed pursuant to subparagraphs (a)(2), above, and such failure results in any increased costs paid by the United States. Such adjustment shall provide for recovery of the increased costs to the United States together with interest thereon computed at the rate determined by the Secretary of the Treasury pursuant to P.L. 92-41, 85 Stat. 97, or 7 percent per annum, whichever is less, from the time the payment by the United States was made to the time the adjustment is effected.

(b) If the parties fail to agree whether the Contractor or subcontractor has complied with an applicable Cost Accounting Standard, rule, or regulation of the Cost Accounting Standards Board and as to any cost adjustment demanded by the United States, such failure to agree shall be a dispute concerning a question of fact within the meaning of the Disputes clause of this contract.

(c) The Contractor shall permit any authorized representatives of the head of the agency, the Cost Accounting Standards Board, or the Comptroller General of the United States to examine and make copies of any documents, papers, or records relating to compliance with the requirements of this clause.

(d) The Contractor shall include in all negotiated subcontracts which he enters into the substance of this clause except paragraph (b), and shall require such inclusion in all other subcontracts of any tier, except that this requirement shall apply only to negotiated subcontracts in excess of $100,000 where the price negotiated is not based on:

(i) Established catalog or market prices of commercial items sold in substantial quantities to the general public; or

(ii) Prices set by law or regulation.

NOTE:

1. Subcontractors shall be required to submit their Disclosure Statements to the Contractor. However, if a subcontractor has previously submitted his Disclosure Statement to a Government Contracting Officer he may satisfy that requirement by certifying to the Contractor the date of such Statement and the address of the Contracting Officer.

2. In any case where a subcontractor determines that the Disclosure Statement information is privileged and confidential and declines to provide it to his Contractor or higher tier subcontractor, the Contractor may authorize direct submission of that subcontractor's Disclosure Statement to the same Government offices to which the Contractor was required to make submission of his Disclosure Statement. Such authorization shall in no way relieve the Contractor of liability as provided in paragraph (a)(5) of this clause. In view of the foregoing and since the contract may be subject to adjustment under this clause by reason of any failure to comply with rules, regulations, and Standards of the Cost Accounting Standards Board in connection with covered subcontracts, it is expected that the Contractor may wish to include a clause in each such subcontract requiring the subcontractor to appropriately indemnify the Contractors. However, the inclusion of such a clause and the terms thereof are matters for negotiation and agreement between the Contractor and the subcontractor, provided that they do not conflict with the duties of the Contractor under its contract with the Government. It is also expected that any subcontractor subject to such indemnification will generally require substantially similar indemnification to be submitted by his subcontractors.

(e) The terms defined in Sec. 331.2 of Part 331 of Title 4, Code of Federal Regulations (4 CFR-331.2) shall have the same meanings herein. As there defined, "negotiated subcontract" means "any subcontract except a firm fixed-price subcontract made by a Contractor or subcontractor after receiving offers from at least two firms not associated with each other or such Contractor or subcontractor, providing (1) the solicitation to all competing firms is identical, (2), price is the only consideration in selecting the subcontractor from among the competing firms solicited, and (3) the lowest offer received in compliance with the solicitation from among those solicited is accepted." (FPR 1-3.1204)

ADDENDUM TO GENERAL PROVISIONS

The clause entitled "Listing of Employment Openings" contained in the General Provisions of this contract is hereby deleted and the clause given below substituted therefor. If the contract incorporates PG-GP-8-1, the clause given below is added thereto.

LISTING OF EMPLOYMENT OPENINGS

(This clause is applicable pursuant to 41 CFR 50-250 if this contract is for $2,500 or more.)

(a) The contractor agrees, in order to provide special emphasis to the employment of qualified disabled veterans and veterans of the Vietnam era, that all suitable employment openings of the contractor which exist at the time of the execution of this contract and those which occur during the performance of this contract, including those not generated by this contract and including those occuring at an establishment other than the one wherein the contract is being performed but excluding those of independently operated corporate affiliates, shall be offered for listing at an appropriate local office of the State employment service system wherein the opening occurs and to provide such reports to such local office regarding employment openings and hires as may be required: Provided, That if this contract is for less than $10,000 or if it is with a State or local government the reports set forth in paragraphs (c) and (d) are not required.

(b) Listing of employment openings with the employment service system pursuant to this clause shall be made at least concurrently with the use of any other recruitment service or effort and shall involve the normal obligations which attach to the placing of a bona fide job order, including the acceptance of referrals of veterans and nonveterans. This listing of employment openings does not require the hiring of any particular job applicant or from any particular group of job applicants, and nothing herein is intended to relieve the contractor from any requirements in any statutes, Executive orders, or regulations regarding nondiscrimination in employment.

(c) The reports required by paragraph (a) of this clause shall include, but not be limited to, periodic reports which shall be filed at least quarterly with the appropriate local office or, where the contractor has more than one establishment in a State, with the central office of the State employment service. Such reports shall indicate for each establishment (i) the number of individuals who were hired during the reporting period, (ii) the number of those hired who were disabled veterans, and (iii) the number of those hired who were nondisabled veterans of the Vietnam era. The contractor shall submit a report within 30 days after the end of each reporting period wherein any performance is made under this contract. The contractor shall maintain copies of the reports submitted until the expiration of one year after final payment under the contract, during which time they shall be made available, upon request, for examination by any authorized representatives of the contracting officer or of the Secretary of Labor.

(d) Whenever the contractor becomes contractually bound by the listing provisions of this clause, he shall advise the employment service system in each State wherein he has establishments of the name and location of each such establishment in the State. As long as the contractor is contractually bound to these provisions and has so advised the State employment system, there is no need to advise the State system of subsequent contracts. The contractor may advise the State system when it is no longer bound by this contract clause.

(e) This clause does not apply to the listing of employment openings which occur and are filed outside of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, and the Virgin Islands.

(f) This clause does not apply to openings which the contractor proposes to fill from within his own organization or to fill pursuant to a customary and traditional employer-union hiring arrangement. This exclusion does not apply to a particular opening once an employer decides to consider applicants outside of his own organization or employer-union arrangement for that opening.

(g) As used in this clause:

(1) "All suitable employment openings" includes, but is not limited to, openings which occur in the following job categories: Production and nonproduction; plant and office; laborers and mechanics; supervisory and nonsupervisory; technical; and executive, administrative and professional openings which are compensated on a salary basis of less than $18,000 per year. The term includes full-time employment, temporary employment of more than 3 days duration, and part-time employment. It does not include openings which the contractor proposes to fill from within his own organization or to fill pursuant to a customary and traditional employer-union hiring arrangement.

(2) "Appropriate office of the State employment service system" means the local office of the Federal-State national system of public employment offices with assigned responsibility for serving the area of the establishment where the employment opening is to be filled, including the District of Columbia, the Commonwealth of Puerto Rico, Guam, and Virgin Islands.

(3) "Openings which the contractor proposes to fill from within his own organization" means employment openings for which no consideration will be given to persons outside the contractor's own organization (including any affiliates, subsidiaries, and parent companies), and includes any openings which the contractor proposes to fill from regularly established "recall" or "rehire" lists.

(4) "Openings which the contractor proposes * * * to fill pursuant to a customary and traditional employer-union hiring arrangement" means employment openings for which no consideration will be given to persons outside of a special hiring arrangement, including openings which the contractor proposes to fill from union halls, which is part of the customary and traditional hiring relationship which exists between the contractor and representatives of his employees.

(5) "Disabled veteran" means a person entitled to disability compensation under laws administered by the Veterans Administration for disability rated at 30 percentum or more, or a person whose discharge or release from active duty was for a disability incurred or aggravated in line of duty.

(6) "Veteran of the Vietnam era" means a person (A) who (i) served on active duty with the Armed Forces for a period of more than 180 days, any part of which occurred after August 5, 1964, and was discharged or released therefrom with other than a dishonorable discharge, or (ii) was discharged or released from active duty for service-connected disability if any part of such duty was performed after August 5, 1964, and (B) who was so discharged or released within the 48 months preceding his application for employment covered by this clause.

(h) If any disabled veteran or veteran of the Vietnam era believes that the contractor (or any first-tier subcontractor) has failed or refuses to comply with the provisions of this contract clause relating to giving special emphasis in employment to veterans, such veteran may file a complaint with the veterans' employment representative at a local State employment service office who will attempt to informally resolve the complaint and then refer the complaint with a report on the attempt to resolve the matter to the State office of the Veterans' Employment Service of the Department of Labor. Such complaint shall then be promptly referred through the Regional Manpower Administrator to the Secretary of Labor who shall investigate such complaint and shall take such action thereon as the facts and circumstances warrant consistent with the terms of this contract and the laws and regulations applicable thereto.

(i) The contractor agrees to place this clause (excluding this paragraph (i)) in any subcontract directly under this contract. (FPR 1-12.1002-2)

Article I - Scope of Work

A. The Contractor shall arrange for Chicago area colleges and universities to provide the necessary personnel to conduct a multilingual reception project at O'Hare International Airport, Chicago, Illinois to explore the use of the College Work-Study Program sponsored by the Department of Health, Education and Welfare (DHEW) as a means of improving our multilingual resources in the Nation's airports of entry. The Contractor shall provide the necessary materials and facilities to conduct such project.

Specifically, the Contractor shall:

1. Recruit and hire college students, proficient in foreign languages who are from Chicago area colleges and universities, and are eligible for employment under the Work-Study Program of DHEW. Students hired must meet the qualifications as prescribed in Attachment A.

2. Train the hired students to perform reception services as required by USTS.

3. Administer the program, including the direction and supervision of the students, and the payrolling of salaries.

4. Have bilingual students greet incoming foreign visitors at the O'Hare International Airport's Arrival Building and offer language assistance in clearing entry formalities, making transportation connections and finding local transportation and accommodations in the Chicago area. They will assist foreign visitors both inside and outside the Federal Inspection Areas.

5. Provide receptionists' uniforms at no expense to the Government.

B. Final Report. A final report which will summarize the effort accomplished, evaluate the performance of the students, evaluate the effectiveness of the project, and make recommendations on improving the program and continuing the program in the future, shall be submitted to the Government in six (6) copies no later than June 30, 1975.

Article II - Financial Provisions

A: The Government will reimburse the Contractor for 20% of the total wages paid to students participating in the pilot project when said wages are allocable to performance under this contract. Total reimbursement shall not exceed $5,000.00 which is the ceiling amount of the Government's obligation under this contract. It is understood that the Government incurs no other obligation whatsoever for services rendered beyond the payment of its 20% share of wages, or the $5,000.00 ceiling whichever is less.

B. Once each month, the Contractor may submit to the Government an invoice or public voucher, in such form and reasonable detail as may be required by the Contracting Officer; such invoice or voucher should, as a minimum, be accompanied by a time sheet indicating exact hours worked for each day of the month, signed by both student and his immediate supervisor, and certified as correct by an appropriate official of the Contractor.

C. At any time or times prior to final payment under this contract, the Contracting Officer may have the invoices or vouchers audited. Each payment theretofore made shall be subject to reduction for amounts included in the related invoice or voucher which are found by the Contracting Officer, on the basis of such audit, not to constitute proper payment. Any payment may be reduced for overpayments, on preceding invoices and vouchers, or increased for under-payments. On receipt and approval of the invoice or voucher designated by the Contractor as the "completion invoice" or "completion voucher" and upon compliance by the Contractor with all the Provisions of this contract, the Department of Commerce shall promptly pay to the Contractor any balance of allowable cost which has been withheld or otherwise not paid to the Contractor.

D. The Contractor agrees to keep records and books of account on a recognized cost-accounting basis, showing the actual cost of all items under this contract including the services for which payments are authorized under this contract. The system of accounting to be employed by the Contractor shall be such as is satisfactory to the Contracting Officer; provided, however that no material change will be required to be made in the Contractor's accounting procedures and practices if the costs properly applicable to this contract are readily ascertainable therefrom.

F. Maintenance and inspection. Lessee shall allow Lessor, its employees, or representatives, ingress and egress to the leased premises for the purpose of inspecting same and for the purpose of maintaining, altering, or adding thereto in any manner or respect whatsoever. Lessor shall not be liable for any loss in business or damages of any nature to Lessee occasioned by the performance of such work.

Article IV

Investment, Alterations and Maintenance

A. Investment. In order to maintain uninterrupted service, it is the Lessor's intention to purchase all of the existing furniture, furnishings, fixtures and equipment from the current Lessee pursuant to Article VIII of the current Lessee's lease, said provision being the same as Article VIII B hereinafter. Lessee is obligated to pay to Lessor at the time of execution of the Lease Agreement whatever sum Lessor was obligated to pay for said furnishings, fixtures, furniture and equipment and said items will then become the property of Lessee.

B. Alterations, Additions or Replacements. Lessee shall make no alterations, additions or replacements without obtaining the Commissioner of Aviation's written approval in advance thereof.

Lessee shall obtain prior approval from the Commissioner of Aviation before installing, at its own expense, any equipment which requires new electrical or plumbing connections or changes in those installed on the premises.

Any alterations, additions or replacements of leasehold improvements shall become part of the realty and on termination of this agreement by time or otherwise shall be left by Lessee on the premises in good condition, normal wear and tear excepted.

The provisions of this paragraph do not include maintenance and repairs which are to be at Lessor's cost as provided in paragraph "A" of Article II hereof.

In the event that said premises shall not be kept by Lessee as herein required, Lessor may enter said premises, without such entering causing or constituting a termination of this lease or an interference with the possession of the demised premises by Lessee, and may cure the default of Lessee. Should such event occur, Lessee agrees to pay Lessor in addition to the rent hereby reserved

all reasonable costs and expenses incurred by Lessor in curing such default. Such maintenance shall be at Lessee's sole expense and will be subject to general inspection by Lessor to insure a continuing quality of maintenance, health, and safety standards established by Lessor for Airport tenants.

Article V

Term

The term of this agreement shall be for a period of five (5) years commencing on ....., the date of approval of the authorizing ordinance by the City Council of the City of Chicago, and terminating on ....., unless otherwise terminated, as herein provided.

B. Schedule of Payments. Lessee shall pay each month in advance to the City Comptroller of the City of Chicago (hereinafter referred to as "City Comptroller") the sum of $300.00, 1/12th of the minimum annual rent, or a prorated share of said sum on the basis of a 30 day month, if said month is not an entire month.

Lessee shall within 15 days of the end of each calendar month pay to the Comptroller a sum equal to the above cited percentage of the gross receipts of said calendar month less the amount prepaid as minimum rent for said calendar month.

Annual adjustments for any rentals payable in excess of the minimum annual guarantee shall be made within thirty (30) days after the close of each twelve (12) month calendar year.

C. Records of Lessee. The Lessee shall, with respect to business done by it in said barber shop concession, keep true and accurate accounts, records, books and data, which shall, among other things, show all sales made and services performed for cash, on credit, or otherwise (without regard to whether paid or not), and, also, the gross receipts of said business, and the aggregate amount of all sales and services and orders, and of all the Lessee's business done upon and within said concession area. All such records and methods of accounting shall be approved by the City Comptroller.

The term "gross receipts", as used herein, shall be construed to mean, for all the purposes hereof, the aggregate amount of all sales made and services performed for cash, on credit, or otherwise, of every kind, name and nature, regardless of when or whether paid for or not, togther with the aggregate amount of all exchanges of goods, wares, merchandise and services for like property, or services, at the selling price thereof, as if the same had been sold for cash or the fair and reasonable value thereof, whichever is the greater.

The Lessee shall, on or before the 15th day of each and every month, during the term hereof, submit to the City Comptroller a detailed statement showing the gross receipts from the operation of the concession for the preceding calendar month. These reports shall show such reasonable detail and breakdowns as may be required by City Comptroller. Such statements shall be accompanied by the Lessee's payment for rentals due hereunder.

The Lessor and its agents shall have the right at all reasonable times, and at all ordinary business hours of the day, to inspect and examine such records, cash registers, books and other data as required to confirm the gross receipts as defined hereinabove.

Article VII

Cancellation by Lessee

This agreement shall be subject to cancellation by the Lessee in the event of any one or more of the following events:

(1) The permanent abandonment of the Airport as an air terminal.

(2) The lawful assumption by the United States Government, or any authorized agency thereof, of the operation, control or use of the Airport, or any substantial part or parts thereof, in such manner as substantially to restrict Lessee for a period of at least ninety (90) days, from operating thereon.

(3) Issuance by any court of competent jurisdiction of any injunction in any way preventing or restraining the use of the Airport, and the remaining in force of such injunction for a period of at least ninety (90) days.

(4) The default by the Lessor in the performance of any covenant or agreement herein required to be performed by the Lessor and the failure of the Lessor to remedy such default for a period of sixty (60) days after receipt from Lessee of written notice to remedy the same.

Article VIII

Property Rights Upon Termination

A. Upon the termination of this lease by lapse of time or otherwise, except for Lessee's default, Lessee shall have the right (subject only to the pre-emption hereinafter stated) and on direction from Lessor shall be obliged to remove all equipment and fixtures and personal property installed or located within the demised premises by Lessee (but not pipes, conduit, and wiring which Lessee may have installed and which may be affixed to or imbedded in walls, ceilings or floors), and whether or not such equipment shall be deemed real or personal. Lessee shall have a reasonable time, not to exceed fifteen (15) days, to remove such equipment and fixtures and personal property and shall within said fifteen (15) days restore the premises to the condition in which they were in when originally delivered to Lessee, ordinary wear and tear excepted. Lessee shall be deemed to have abandoned to Lessor any of such equipment and fixtures and personal property which it has failed to remove from the demised premises within said fifteen (15) days, unless Lessor shall grant a further period in writing for this purpose.

B. Upon the termination of this lease, through passage of time or otherwise, if Lessor is not in default hereunder, Lessee shall aid Lessor in all ways possible in continuing the business of operating a Barber Shop business in said terminal buildings uninterruptedly. Lessee further agrees, if Lessor is not in default hereunder, to sell any or all of Lessee's furniture, furnishings, fixtures and equipment installed or used upon said premises by Lessee to Lessor or any interest thereto which Lessee may have, should Lessor notify Lessee in writing within thirty (30) days before such termination date that Lessor desires to purchase any or all of said furniture, furnishings, fixtures and equipment. In the event Lessor exercises its option

to purchase any or all of said furniture, furnishings, fixtures and equipment, it is agreed that the purchase price shall be the fair market value of such items at the date of such termination. If the parties are unable to agree upon the fair market value, it is agreed that each party shall appoint an appraiser and the two so appointed shall name a third appraiser and that the three appraisers so named shall determine the fair market value of such items, which determination shall be final and binding upon the parties hereto.

C. Upon the termination of this lease, through passage of time or otherwise, it is mutually agreed that Lessee shall have no further right, title or interest in or to any of the leasehold improvements installed by it under this lease.

Article IX

Damage or Destruction of Premises

If the premises leased to Lessee are partially damaged by fire, explosion, the elements, the public enemy, or other casualty, but not rendered untenantable, the same shall be repaired with due diligence by Lessor at its own cost and expense. If the damage shall be so extensive as to render such premises untenantable, but capable of being repaired in sixty (60) days, the same shall be repaired with due diligence by Lessor at its own cost and expense, and the rent payable herein shall be proportionately paid up to the time of such damage and thereafter cease until such time as the premises are fully restored. In the event the said premises are completely destroyed by fire, explosion, the elements, the public enemy or other casualty, or so damaged that they will remain untenantable for more than sixty (60) days, the Lessor shall be under no obligation to repair and reconstruct the premises, and rent payable hereunder shall be proportionately paid up to the time of such damage or destruction and shall thenceforth cease until such time as the premises may be fully restored. If within twelve (12) months after the time of such damage or destruction said premises shall not have been repaired or reconstructed, Lessee may give the Lessor written notice of its intention to cancel the agreement in its entirety as of the date of such damage or destruction.

Article X

Insurance

A. Fire Insurance. Lessee shall procure and keep in force fire and extended coverage insurance upon its leasehold improvements, furniture, furnishings, fixtures and equipment to the full insurable value thereof and shall furnish the City Comptroller with evidence that such coverage has been procured and is being maintained in full force and effect.

B. Workmen's Compensation Insurance. The Lessee shall insure to his employees or their beneficiaries the necessary first aid, medical, surgical and hospital services and compensation as provided for in the Illinois Workmen's Occupational Diseases Act and the Workmen's Compensation Acts of the State of Illinois now in force or as hereafter amended.

Lessee shall indemnify, keep and save the Lessor harmless from all claims, judgments, awards and costs which may in anywise come against said Lessor by reason of occupational diseases, accidental injuries or death suffered by any of the Lessee's employees in and about the performance of their work under this lease. Such insurance shall be placed by the Lessee in a company or association authorized under the laws of the State of Illinois to insure the liabilities specified in this paragraph.

C. Liability Insurance. Lessee shall maintain with insurance underwriters satisfactory to the Lessor a standard form policy or policies of insurance in such amounts as may from time to time be approved by the Lessor protecting both the Lessee and the Lessor against public liability, products liability and property damage. Lessee shall promptly, after the execution of this agreement, furnish such policy or policies for property damage growing out of any one accident or other cause in a sum of not less than Ten Thousand Dollars ($10,000.00); for personal injuries/death growing out of any one accident or other cause with liability of not less than Two Hundred Thousand Dollars ($200,000.00) subject to a limitation of One Hundred Thousand Dollars ($100,000.00) for any one person, such coverage to include products liability. It is understood that the specified amounts of insurance in no way limits the liability of Lessee and that Lessee shall carry insurance in such amounts so as to indemnify and save harmless the Lessor from all claims, suits, demands and actions. Lessee shall furnish a certificate from the insurance carrier or carriers showing such insurance to be in full force and effect during the term of this contract, or shall deposit copies of the policies which give this coverage with the City Comptroller.

Article XI

Indemnity

The Lessee does hereby covenant and agree to defend, indemnify and save harmless the Lessor from all fines, suits, claims, demands and actions of any kind and nature by reason of any and all of its operations hereunder and does hereby agree to assume all the risk in the operation of its business hereunder and shall be solely responsible and answerable in damages for any and all accidents or injuries to persons or property.

Article XII

Subject to regulations governing the use of the Airport, the Lessee, his agents and servants, patrons and invitees, and his suppliers of service and furnishers of materials shall have the right of ingress to and egress from the premises located exclusively to the Lessee; provided, however, that the suppliers of service, furnishings, materials or stock shall do so between the hours of 10:00 P.M. on one day and 8:00 A.M. on the following day, and at no other time without the prior approval of the Commissioner of Aviation or his representatives.

Article XIV

Assignment and Subletting

The Lessee shall not assign, transfer, sub-lease, pledge, surrender, or otherwise encumber or dispose of this lease or any estate created by this lease, or any interest in any portion of the same, or permit any other person or persons, company or corporation to occupy the premises, without the written consent of the City Council and the Commissioner of Aviation being first obtained, provided, however, that the foregoing shall not prevent the assignment of this lease and of Lessee's right hereunder to any corporation into or with which Lessee

may merge or consolidate or which may succeed to the business and assets of Lessee.

Article XV

Signs

Lessee shall not erect, install, operate nor cause nor permit to be erected, installed or operated in or upon the premises herein, the terminal building or the Airport, any signs or other similar advertising device without first having obtained the Commissioner of Aviation's written consent thereto.

Article XVI

Lessee will make no unlawful or offensive use of said premises and will at the expiration of the term hereof or upon any sooner termination thereof, without notice, quit and deliver up said premises to Lessor and those having its estate in the premises, peaceably, quietly and in as good order and condition, reasonable use and wear thereof excepted as the same now are or may hereafter be placed by Lessee or Lessor.

Article XVII

Holding Over

In the event Lessee shall hold over and remain in possession of the premises herein leased after the expiration of this lease without any written renewal thereof, such holding over shall not be deemed to operate as a renewal or extension of this lease but shall only create a tenancy from month to month which may be terminated at any time by Lessor.

Article XVIII

At the time of the execution hereof, Lessee shall execute and deliver to City Comptroller a satisfactory Concessionaire's Bond with approved corporate surety in the sum of $10,000.00, which bond shall guarantee faithful performance of the provisions of the lease.

B. The City has applied for and received grants of money from the Federal Aviation Administration and the Department of Aeronautics, State of Illinois, and the City may in the future apply for and receive further such grants. In connection therewith, the City has undertaken and may in the future undertake certain obligations respecting its operation of the Airport and the activities of its contractors, lessees and permitees thereon. The performance by Lessee of the covenants, promises and obligations contained in this agreement is therefore a special consideration and inducement to the execution of this lease by the City and Lessee further covenants and agrees that if the Administrator of the Federal Aviation Administration or the Director of the Department of Aeronautics or any other governmental officer or body having jurisdiction over the enforcement of the obligations of the City in connection with Federal or State Airport Aid, shall make any orders, recommendations or suggestions respecting the performance by the Concessionaire of its obligations under this lease, the Concessionaire will promptly comply therewith, at the time or times when and to the extent that the City may direct.

Article XX

Such action shall include, but not be limited to the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. Lessee agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this non-discrimination clause. Article XXI

Non-waiver

Any waiver or any breach of covenants herein contained to be kept and performed by Lessee shall not be deemed or considered as a continuing waiver and shall not operate to bar or prevent Lessor from declaring a forfeiture of any succeeding breach either of the same condition or covenant or otherwise.

Article XXII

Default and Confession of Judgment

If Lessee shall vacate or abandon the premises, or any part thereof, or permit the same to remain vacant or unoccupied, or in case of the non-payment of the rent and charges reserved hereby, or any part thereof, or of the breach of any covenant in this agreement contained, Lessee's right to the possession of the premises thereupon shall terminate, with or without any notice or demand whatsoever, and the mere retention of possession thereafter by Lessee shall constitute a forcible de-

tainer of said premises, and if the Lessor so elects, but not otherwise, this agreement shall thereupon terminate and upon the termination of Lessee's right of possession, as aforesaid, whether this agreement be terminated or not, Lessee agrees to surrender possession of the premises immediately, without the receipt of any demand for rent, notice to quit or demand for possession of the premises whatsoever, and Lessee hereby grants to Lessor full and free license to enter into and upon said premises, or any part thereof, to take possession thereof without process of law and to expel and remove Lessee, or any other person who may be occupying the premises, or any part thereof and Lessor may use such force in and about expelling and removing Lessee and said other person as may reasonably be necessary and Lessor may repossess itself of the said premises as of its former estate, but said entry of said premises shall not constitute a trespass or forcible entry or detainer, nor shall it cause forfeiture of charges due by virtue hereof, nor a waiver of any covenant, agreement or promise in said agreement contained, to be performed by Lessee.

Lessee hereby waives all notice of any election made by Lessor under this agreement, demand for rent, notice to quit, demand for possession, and any and all notices and demands whatsoever, of any and every nature, which may or shall be required by any statute of this State relating to forcible entry and detainer, or to Lessor and Lessee, or any other statute, or by the common law during the term of this agreement. The acceptance of rent, whether in a single instance or repeatedly, after it falls due, or after knowledge of any breach hereof by Lessee, or the giving or making of any notice or demand, whether according to any statutory provisions or not, or any act or series of acts, except an express written waiver, shall not be construed as a waiver of Lessor's right to act without notice or demand or of any other right hereby given Lessor, or as an election not to proceed under the provisions of this agreement.

If default to be made in the payment of the rent, or other charges herein reserved, or of any installment thereof, as herein provided, Lessee does hereby irrevocably constitute any attorney of any Court of Record in this State, attorney for it and in its name, from time to time, to waive the issuance of process and service thereof, to waive trial by jury, to confess judgment in favor of Lessor and against Lessee for the amount of rent which may be then due, by virtue of the terms hereof, or of any extensions or renewals hereof, or by virtue of any holdover after the termination hereof, and which may be in default, as aforesaid, together with the costs of such proceedings and for said purposes to file in said cause his cognovit thereof, and to make an agreement in said cognovit, or elsewhere, waiving and releasing all errors which may intervene in any such proceeding and waiving and releasing all right of appeal and right to writ of error, and consenting to an immediate execution upon such judgment, and Lessee hereby confirms all that said attorney may lawfully do by virtue hereof. Lessor shall have a first lien on Lessee's interest hereunder, and on Lessee's property now or hereafter located in said premises, or elsewhere, to secure the payment of all moneys due hereunder, which lien may be foreclosed in equity and in case of any such foreclosure proceeding, a receiver shall be appointed to take possession of said premises and property and relet the premises under order of court.

The obligation of Lessee to pay the rent reserved hereby during the balance of the term hereof, or during any extension thereof, shall not be deemed to be waived, released or terminated, nor shall the right and power to confess judgment given in the preceding paragraph hereof be deemed to be waived or terminated by the service of any five-day notice, other notice to collect, demand for possession, or notice that the tenancy hereby created will be terminated on the date therein named, the institution of any action of forcible detainer or ejectment, or any judgment for possession that may be rendered in such action, or any other act or acts resulting in the termination of Lessee's right to possession of the premises. The Lessor may collect and receive any rent due from Lessee and payment or receipts thereof shall not waive or affect any such notice, demand, suit or judgment, or in any manner whatsoever waive, affect, change, modify or alter any rights or remedies which Lessor may have by virtue hereof.

Lessee shall pay and discharge all costs, expenses and attorney's fees which shall be incurred and expended by Lessor in enforcing the covenants and agreements of this agreement, whether by the institution of litigation or in the taking advice of counsel, or otherwise.

The rights and remedies hereby created are cumulative and the use of one remedy shall not be taken to exclude or waive the right to the use of another.

Article XXIII

Independence of Agreement

It is understood and agreed that nothing herein contained is intended or should be construed as in anywise creating or establishing the relationship of copartners between the parties hereto, or as constituting either party as the agent, representative or employee of the other party, for any purpose or in any manner whatsoever. Lessee is to be and shall remain an independent contractor with respect to all services performed under this lease.

Pursuant to said designation the U.S.A. filed a condemnation proceeding vesting it immediately with title to the property in the block bounded as follows:

Washington Street on the North; Jefferson Street on the East; Madison Street on the South; Desplaines Street on the West; and

Whereas, Under the Federal procedure for Condemnation, neither the Madison-Canal Development Company, nor the City of Chicago had an opportunity to prevent the immediate vesting of title in the U.S.A. Although title has passed, said Condemnation proceeding is still pending in the District Court on the issues of damages and/or value of the land taken; and

Whereas, The aforesaid land acquired by the U.S.A. comprised approximately 100,000 square feet of land, previously conveyed to Madison-Canal Development Company by the City of Chicago, being a part of Parcel No. I of said Contract; approximately 16,000 square feet of land located in Parcel No. II of the said Contract owned by the City of Chicago; approximately 11,000 square feet owned by a private owner located within Parcel No. II of the said Contract; and

Whereas, With respect to the U.S.A. Condemnation proceeding it is the intention of this Body that the City of Chicago continue to pursue all claims for damages as a result of the said action; and

Whereas, It is the intention of this Body to consider the U.S.A. Condemnation proceeding as if it were a transfer of the property prior to the completion of the improvements and contrary to

the terms of the Contract and further intends to enforce the contract provisions restricting the Redeveloper from receiving any profit from the Condemnation Award; and

Whereas, As a result of the aforesaid Condemnation proceeding by the U.S.A. the title to the land located in block bounded by Washington Street on the North, Clinton Street on the East, Madison Street on the South and Jefferson Street on the West, is vested as follows:

1. Madison-Canal Development Company, pursuant to the City conveyance of Parcel No. I, 93,000 square feet;

2. City of Chicago approximately 35,600 square feet fronting Washington Street. The said land owned by the City of Chicago comprises the balance of Parcel No. II not acquired by the U.S.A.; and

Whereas, Madison-Canal Development Company and the City of Chicago established an escrow on April 3, 1973, with the Chicago Title & Trust Company for the purpose of effectuating the conveyance of the balance of the property in Parcel No. II in accordance with the terms and conditions of the Contract; and

Whereas, The City, because of the tenancy of the United States Post Office in a part of the premises to be conveyed in Parcel No. II, until recent date, has been unable to convey said land in accordance with the terms and conditions of the Contract. However, the Redeveloper, by letter dated March 23, 1973, and by letter of October 11, 1973, indicated its willingness to proceed to consummate the said purchase; and

Whereas, Notwithstanding the events as hereinabove set forth, the Department of Urban Renewal of the City of Chicago has determined that Madison-Canal Development Company is in default of the terms and conditions as set forth in Sections 4 and 5 of the Contract for Sale of Land for Redevelopment; and

Whereas, The Board of the Department of Urban Renewal, having duly considered all pertinent and relevant information with respect to the Project designated Madison-Canal, determined, by Resolution adopted June 4, 1974, that it is in the best interests of the City of Chicago, in accordance with Section 703 of the said Contract, to terminate the Contract with respect to the land to be conveyed pursuant to Section 2, identified as Parcel Nos. III, IV and V only; that the balance of the land in Parcel No. I and Parcel No. II located within the block bounded by Washington Street on the North, Clinton Street on the East, Madison Street on the South and Jefferson Street on the West, shall remain subject to the terms and conditions of the said Contract, including the personal liability of Wallace E. Johnson and Kemmons Wilson as determined in Blum v. Madison-Canal Development Company, 71-CH-1136, and has submitted such determination to this Body; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

Section 1. That the Contract for Sale of Land for Private Redevelopment by and between the City of Chicago and the Madison-Canal Development Company with respect to the conveyance and redevelopment of the land designated as Parcel Nos. III, IV and V only, is hereby rescinded and terminated in accordance with the terms and conditions of Section 703 of the said Contract.

Section 2. That the Department of Urban Renewal proceed forthwith to complete the conveyance of the balance of the land presently owned by the City of Chicago in Parcel No. II, in accordance with the terms and conditions of the Contract entered into on the 11th day of September, 1969, and recorded as Document No. 21292747; that the terms and conditions of the Contract for Sale of Land between the City of Chicago and Madison-Canal Development Company with respect to the land in the block bounded by Washington Street on the North, Clinton Street on the East, Madison Street on the South and Jefferson Street on the West shall remain in full force and effect.

Section 3. That the City of Chicago shall continue to pursue in the Condemnation proceeding instituted by the U.S.A. pending in the District Court for the Northern District of Illinois, any and all claims for damages as a result of the said acquisition.

Section 4. That this Body hereby determines that the U.S.A. Condemnation Proceeding is none the less a transfer of the property prior to the completion of the improvements contrary to the terms of the Contract and the City shall enforce provisions restricting the Redeveloper from receiving a profit from the Condemnation Award.

Section 5. That the Department of Urban Renewal proceed forthwith to acquire the balance of the land in the Project known as Madison-Canal and cause said land to be sold for Redevelopment as soon as possible.

Section 6. That this ordinance become effective immediately upon its passage.

Commendations Extended to Marshall Field for His Call for Greater Responsibility in Reporting by News Media.

A proposed resolution reading as follows:

WHEREAS, Marshall Field—Publisher of the Chicago Sun Times and the Chicago Daily News—recently delivered a major address in which he courageously pointed out what he called "the growing lack of trust people have in the media"; and

WHEREAS, Marshall Field is the first Publisher of two major newspapers in the United States who

has publicly called attention to this crisis of confidence in the news media; and

WHEREAS, In this extraordinary demonstration of self criticism of the news industry, Marshall Field stated: "It is crucial that the public believe in its own media. A free press exists for the welfare of the people. As life gets more and more complicated every day, how can average people cope if they can't believe what they hear or read that is going on around them? How can they determine what really is the truth?"; and

WHEREAS, As a highly respected member of the news reporting industry himself, Marshall Field has proposed that "an individual who feels he has been wrongly or unfairly treated in a story should be able to sue not just the media that printed—or broadcast—the story, but also the individual who wrote or reported the story"; and

WHEREAS, He further pointed out: "This is especially true where careers of public figures are at stake. I believe that if a person can show, after the fact, damage to himself or herself, that person should be able to sue the writer, as well as the communications company for negligence, even if there is no malice"; and

WHEREAS, Marshall Field stressed that the thrust of his idea "is not to set up punitive laws but to encourage fair and honest reporting"; and

WHEREAS, He further stated: "We in the media have to do a better job to win back the confidence of the country. The First Amendment's guarantee of freedom of the press is a guarantee for a responsible press"; and

WHEREAS, Marshall Field has proven himself a worthy prophet because only yesterday, The United States Supreme Court allowed private individuals to sue for libel without proving malice—the Court held that in the case of private individuals, proof of negligence is sufficient; and

WHEREAS, Even in the case of public officials seeking redress for falsehoods, the Supreme Court decision now raises some pointed questions as to when a private individual becomes a public figure; and

WHEREAS, Marshall Field, in his closing statement calling for more responsible reporting said: "The people of America expect the media to cover the news as it happens, then to comment on it. But, when we get the two mixed up, I feel we let the public down and deserve the criticism we get"; now, therefore,

Be It Resolved, That:

1) Without in any way disturbing the First Amendment, the City Council commends Marshall Field for his daring initiative in starting a national dialogue on the crisis of confidence facing the media.

2) The City Council further commends Marshall Field for publicly encouraging fair and honest reporting and for his plea to media leaders for quick retraction of error in print or on the air.

3) Leaving to media management the task of how to deal with irresponsible reporting, the City Council commends Marshall Field for his appeal to separate hard news from personal opinion or bias in reporting.

4) Finally, the City Council reaffirms its firm belief that a fair, honest, free and unfettered press provides for our people that protection of freedom which no Constitution—standing alone—could ever provide.

Tribute Paid to Late Mrs. Martin Luther King, Sr.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council transmitted the following proposed resolution:

WHEREAS, All Chicagoans were shocked and saddened by the senseless slaying of Mrs. Martin Luther King, Sr. in Atlanta, Georgia, on June 30, 1974; and

WHEREAS, Mrs. Martin Luther King, Sr., the former Alberta Christine Williams, was born in Atlanta in 1904 and spent her entire life in active support of men whose calling was the word of God, and whose pulpit was the Ebenezer Baptist Church. Her father, the Reverend A. D. Williams, founded the Ebenezer Baptist Church, where her husband later became pastor and where her son, Martin Luther King, Jr. initially launched his brilliant career; and

WHEREAS, Mrs. King was a graduate of Hampton Institute in Virginia, who gave strength and character to her husband and children by her tireless devotion to their needs and support of their mission, the brotherhood of man under the fatherhood of God; and

WHEREAS, Mrs. King's tragic death, while acting as the handmaiden of the Lord in the very church which dominated her life, gives cause to pause and reflect on the all too vivid memories surrounding the similarly tragic death of her talented and martyred son, Martin Luther King, Jr.; and

WHEREAS, Mrs. Martin Luther King, Sr. in life typified all that is good in American womanhood and motherhood, so that if in death the quiet strength, guidance and support which she gave her family were to be emulated widely, it would be a due and fitting tribute to her memory; now, therefore,

Be It Resolved, That the Mayor and members of the City Council of the City of Chicago, in meeting assembled this 10th day of July, A.D. 1974, together with all the people of the City of Chicago express publicly their sorrow and regret upon the untimely passing of Mrs. Martin Luther King, Sr., and acknowledge their appreciation for her dedicated service to human rights and express their deep sympathy to her husband, the Reverend Martin Luther King, Sr., and to her family; and

Be It Further Resolved, That a suitable copy of this Resolution be presented to her husband, the Reverend Martin Luther King, Sr., widower of Mrs. Martin Luther King, Sr.

Alderman Stewart moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

On motion of Alderman Stewart (seconded by Aldermen Cousins, Jones, Langford, Pucinski and Natarus) the foregoing proposed resolution was *Adopted,* unanimously, by a rising vote.

All of the Aldermen expressed their regret that such an unseemly and senseless killing had occurred and all urged that the Federal Government take action to ban the sale of handguns. All extended their sympathy to the bereaved family.

Holy Name Cathedral Commemorates Century of Service.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council transmitted the following proposed resolution:

WHEREAS, On July 19, 1974 the Holy Name Cathedral will commemorate a century of service dedicated to Almighty God; and

WHEREAS, The Chapel of the Holy Name was originally dedicated in November 1849 occupying the site of the present Cathedral Rectory, and then, two years later, a second church was erected on State Street between Huron and Superior to replace the original Chapel in order to serve the increasing number of Catholic immigrants who were settling in Chicago. The first pastor of Holy Name, Reverend Jeremiah Kinsella, in keeping with the growth of the "City on the Shore" laid the corner stone for one immense brick church at the southeast corner of State and Superior Streets on August 3, 1852. This edifice was to measure 84 x 190 feet with a steeple rising some 245 feet skyward of Milwaukee brick in a Gothic style of architecture accentuated by stained glass windows of Biblical scenes. The building was to cost $100,000—a figure almost beyond comprehension in those days. The first mass in the new church was celebrated on Christmas Day, 1854, and in 1861 Bishop James Duggan began to use the Holy Name church as his Cathedral because of its size and grandeur. The word "cathedral" finds its derivation in the Latin word "Cathedra", which means "Bishop's Chair"; and

WHEREAS, The Great Chicago Fire of 1871 decimated this tremendous house of worship and left the heart of the Diocese in a smoldering pile of ashes; and

WHEREAS, Because of the "I Will" spirit, generosity, love and devotion to God of this great City's catholic population, work on the new Holy Name Cathedral began in February, 1874, and the corner stone was laid by Bishop Thomas Foley on July 19, 1874. Sixteen months later on November 21, 1875, Bishop Foley dedicated the present

splendid edifice and once more the "Bishop's Chair" had regained its rightful position at this Church's altar; and

WHEREAS, This great Church of the Archdiocese of Chicago recalls to many the names of Archbishop James Quigley, Cardinals Mundelein, Stritch and Meyer; whose red hats hang from the ceiling of the Cathedral and stand as an insignia of pride, accomplishment and leadership for the archdiocese; and

WHEREAS, The Church's interior was entirely rejuvenated during 1968-1969 under the direction of John Cardinal Cody, present Archbishop of Chicago. The beautiful Cathedral of the Holy Name—the phoenix that rose from the ashes—has stood for a century. After one hundred years of presence in the City of Chicago, this Cathedral has touched the lives of hundreds of thousands of Catholics and non-Catholics, both living and dead. It is an edifice that echoes a proud and holy heritage of the past; that serves the spiritual needs of the present and stands as a symbol of hope for the future. All Chicagoans are gratefully a part of that past, appreciate this Church's presence and share in its hope for the future; now, therefore,

Be It Resolved, That the Mayor and members of the City Council of the City of Chicago in meeting assembled this 10th day of July, A.D., 1974, do hereby commemorate the 100 years of service to God and man which has emanated from the Holy Name Cathedral and join in observing this as Holy Name Cathedral year; and

Be It Further Resolved, That a suitable copy of this Resolution be presented to John Cardinal Cody as an expression of congratulations and best wishes to all members of the Archdiocese.

Alderman Natarus moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

On motion of Alderman Natarus (seconded by Alderman Keane) the foregoing proposed resolution was *Adopted,* unanimously.

CITY OF CHICAGO
DEPARTMENT OF LAW

July 8, 1974.

To The Honorable, The City Council of the City of Chicago:

Re: *Paper Supply Co. et al.* vs. *The City of Chicago et al.*

Illinois Supreme Court No. 46540.

LADIES AND GENTLEMEN—On July 1, 1974 the Illinois Supreme Court announced its decision upholding the Chicago Employers' Expense Tax Ordinance provided by Chapter 200.2 of the Municipal Code of Chicago. Four separate actions challenging the constitutionality of the ordinance were consolidated in the Circuit Court of Cook County. The Circuit Court held all provisions of the ordinance valid except section 200.3-1H which defines "full-time employee". Plaintiffs appealed from the judgment of the Circuit Court and the City of Chicago cross-appealed from that portion of the decision holding section 200.3-1H invalid. Direct appeal was taken to the Illinois Supreme Court pursuant to that Court's determination that the public interest required prompt adjudication.

The Supreme Court found without merit the plaintiffs' contention that the ordinance imposed a tax "upon occupations" in violation of section 6(e) of Article VII of the Illinois Constitution of 1970. The Court noted that section 6(m) of Article VII of the Constitution provides that the "powers and functions of home rule units shall be construed liberally" and concluded that the tax imposed is not within the constitutional proscription of an "occupation tax" as that term has been construed in Illinois. The Court also rejected contentions that the several exemptions from the tax specified by the ordinance deny equal protection of the laws; that certain sections of the ordinance are violative of section 6(e) of Article VII of the Constitution in that they have the attributes of providing for a license for revenue; that certain classifications of employees in section 200.3-1G are discriminatory and lacking in uniformity; that the ordinance unlawfully delegates legislative authority in incorporating by reference certain provisions of Illinois Statutes; and that the ordinance unlawfully delegates power to the Director of Revenue to impose penalties and to make rules. The Court accepted the plaintiffs' argument that section 200.3-9B which provides for review of decisions of the Director of Revenue pursuant to the Illinois Administrative Review Act is invalid because the City is without power to fix the method of such review. The Court declared, however, that section 200.3-9B is severable and that its invalidity does not affect the remainder of the ordinance.

The City on cross-appeal argued that section 200.3-1H states a clear and unambiguous definition of a class designated "full-time employees". The Supreme Court accepted the City's argument and reversed the ruling of the Circuit Court which had held that section of the ordinance unconstitutional.

Respectfully,

(Signed) RICHARD L. CURRY,
Corporation Counsel.

CITY OF CHICAGO
DEPARTMENT OF LAW

July 9, 1974.

To the Honorable, The City Council of the City of Chicago:

Re: *Jack Hoogasian, Individually, et al.* vs. *Regional Transportation Authority*
Illinois Supreme Court No. 46794

LADIES AND GENTLEMEN—On June 28, 1974 the Illinois Supreme Court announced the entry of an order reversing judgments of the Lake County Circuit Court which had enjoined The Regional Transportation Authority, the Mayor and City Council of the City of Chicago and certain officers of the State of Illinois from exercising the powers conferred upon them by the Regional Transportation Authority Act set forth in chapter 111⅔ section 701.01 et seq. of the Illinois Revised Statutes of 1973. The suit was filed by the State's Attorney of Lake County and sought to have the Regional Transportation Authority Act and the referendum therein mandated declared unconstitutional. Motions to dismiss the complaint were filed by the Regional Transportation Authority and the Mayor and City Council of the City of Chicago and were denied by the Circuit Court of Lake County. The Court thereupon issued its writ of injunction. Thereafter the Authority and the Mayor and City Council of the City of Chicago filed notices of appeal. Pursuant to the Illinois Supreme Court's determination that the public interest required expeditious adjudication of the matter direct appeal to that Court was allowed.

On appeal appellants argued that the Circuit Court had erred in its findings that the referendum proposition as statutorily specified and presented to the voters was invalid because not sufficiently informative. Appellants also presented argument supporting the constitutionality of other sections of the Regional Transportation Authority Act alleged by the complaint to be invalid.

The Supreme Court delivered its decision reversing the judgments of the Circuit Court in a brief order and stated that an opinion setting forth the reasons for its action will be filed later.

Respectfully,

(Signed) RICHARD L. CURRY,
Corporation Counsel.

WITNESSETH:

Whereas, The State and City are desirous of constructing a Park-N-Ride Facility consisting of a parking structure located over the Kennedy Expressway between the Jefferson Park Terminal of the Kennedy Transit Line and Ainslie Street in the City of Chicago, County of Cook. Included is a new connection from the existing Ainslie Street Bridge providing vehicular ingress into this facility. Vehicular egress is provided via a new direct ramp from this facility onto the northwest bound roadway of the Kennedy Expressway. Also a pedestrian connection will provide access to the existing Jefferson Park C.T.A. Terminal and the existing Chicago and North Western Railway Station; and

Whereas, The State and City have agreed to participate in this Federal-Aid Project; and

Whereas, The City is to maintain or cause to be maintained the facility in a manner satisfactory to the public authority having ultimate jurisdiction upon its completion; and

Whereas, The State and City are entering into this agreement for the purpose of complying with the Federal Highway Administration's Policy and Procedure Memorandum 8010, relating to the use of airspace by the City.

Now, Therefore, It shall be known that the location, description and clearances are as shown on the attached Exhibit "A" of the agreement for said facility.

The City with respect to this facility hereby agrees to the following conditions:

1. Any revision in the design or construction which affects the airspace occupancy by the City shall receive prior review and approval by the State with concurrence by the Federal Highway Administration.
2. Any change in the authorized use of the airspace by the City shall receive prior approval by the State with concurrence by the Federal Highway Administration.
3. The authorized use of airspace shall not be transferred, assigned or conveyed to another party or agency, without prior approval by the State with concurrence by the Federal Highway Administration.
4. This agreement contained herein for the use of airspace shall be revocable in the event the airspace assigned to the City ceases to be used or is abandoned. In the event authority for the use of airspace is revoked and the State deems it necessary to request the removal of the facility occupying the airspace, the removal shall be accomplished by the City in a manner acceptable to the State.
5. This agreement contained herein, for the use of airspace, shall comply with the appropriate Provisions of "Appendix C" of the City's assurances in respect to the Civil Rights Act of 1964, and Title 49, C.F.R. 21, which are as follows:

U.S. Department of Transportation

Subtitle A—Office of the Secretary of Transportation

6. Appendix C

Application of Part 21 to Certain Federal Financial Assistance of the Department of Transportation

Nondiscrimination in Federally Assisted Projects

A. The City, acting through its Department of Public Works, may not discriminate in its selection and retention of contractors, including without limitation, those whose services are retained for, or incidental to, construction, planning, research, highway safety, engineering, property management and fee contracts and other commitments with persons for services and expenses incidental to the acquisition of right-of-way.

B. The City may not discriminate against eligible persons in making relocation payments and in providing relocation advisory assistance where relocation is necessitated by highway right-of-way acquisitions.

C. Federal-aid contractors may not discriminate in their selection and retention of first-tier subcontractors, and first-tier subcontractors may not discriminate in their selection and retention of second-tier subcontractors, who participate in Federal-aid highway construction, acquisition of right-of-way and related projects, including those who supply materials and lease equipment.

D. The City may not discriminate against the traveling public and business users of the federally assisted highway in their access to and use of the facilities and services provided for public accommodations (such as eating, sleeping, rest, recreation, and vehicle servicing) constructed on, over or under the right-of-way of such highways.

E. Neither the City, any other persons subject to this part, nor its contractors and subcontractors may discriminate in their employment practices in connection with highway construction projects or other projects assisted by the Federal Highway Administration.

F. The City shall not locate or design a highway facility in such a manner as to require, on the basis of race, color or national origin, the relocation of any persons.

G. The City shall not locate, design, or construct a highway facility in such a manner as to deny reasonable access to, and use thereof, to any persons on the basis of race, color or national origin.

The City further agrees to the following conditions:

7. The use of airspace above the established gradeline of the highway shall not, at any point within 15 feet of the outside edges of the geometric section of the highway, extend below a horizontal plane which is at least 16 feet, 4 inches above the gradeline of the highway, or the minimum vertical clearance plus four inches as approved for the City by the State and FHWA except as necessary for columns, foundations or other support structures. If control and directional signs should be needed for the highway and are installed beneath the overhead structure, vertical clearance will be at least 20-feet from the gradeline of the highway to the lowest point of the soffit of the overhead structure.
8. The piers, columns, or any other portion of the airspace structure will not interfere with visibility or reduce the sight distance or in any way interfere with the safety and free flow of traffic on the highway facility.
9. The structural supports for the airspace facility shall be located to clear all horizontal and vertical dimensions established by the State Department of Transportation. Supports will be clear of the shoulders or safety walks of the outer roadways. All supports will be back of or flush with the face of any wall at the same location. Supports will be adequately protected by means acceptable to the State Department of Transportation and the FHWA. No supports will be located in the vicinity of ramps, or in a position as to interfere with the signing necessary for the proper use of the ramps.
10. The use of the subject airspace will not unduly expose highway or non-highway users to hazardous conditions because of highway location design, maintenance, and operational features.
11. Appropriate safety precautions and features necessary to minimize the possibility of injury to users of either the highway facility or airspace due to traffic accidents occurring on the highway shall be provided. Such precautions shall include, but not be limited to consideration of protective barriers or continuous guardrail with impact attenuation proper to prevent penetration by heavy vehicles, installation of fire hydrants, drainage arrangements adequate to safely handle accidently released hazardous liquids, warning signs, reflectors and lights, speed controls, and where deemed necessary limitations on the use of the highway facility by vehicles carrying hazardous materials. Plans for the airspace

facility contain adequate provisions, acceptable to the State Department of Transportation and FHWA for evacuation of the structures or facility in case of a major accident endangering the occupants of the subject structure or facility.

12. The airspace facility shall be fire resistant in accordance with the provisions of the local applicable building codes found to be acceptable by the State Department of Transportation and the FHWA. The airspace facility shall not be used for the manufacture or storage of flammable, explosives, hazardous material or for any occupation which is deemed by the State Department of Transportation or FHWA to be a hazard to highway or non-highway users. Proposals involving the construction of improvements in airspace shall be approved by the local or the State authority responsible for fire protection standards. In the event the State Department of Transportation or the FHWA question the acceptability of the existing code, conformance with the Uniform Building Code or the National Building Code will be required.
13. Complete tunnel ventilation will be provided for all highway facilities below the airspace structure.
14. The design, occupancy, and use of subject structure shall be such that neither the use, safety, appearance, nor the enjoyment of the highway will be adversely affected by fumes, vapors, odors, drippings, droppings or discharge of any kind therefrom.
15. Any on-premises signs, displays, or devices that may be erected on the subject structure occupying the airspace shall be restricted to those indicating ownership and type of on-premises activities and shall be subject to regulation by the State Department of Transportation and FHWA with respect to number, size, location and design.
16. Construction of subject structure will not require any permanent change in alignment or profile of the Federal-aid highway.
17. This facility occupying the airspace will be properly maintained in such a manner as to cause no unreasonable interference with traffic, and the structures and area within the highway right-of-way boundaries will be kept in good condition, both as to safety and appearance. In the event City fails its maintenance obligations, the State Department of Transportation may enter the premises to perform such work and the City shall be billed for the cost of all such work performed by the State.
18. The airspace facility shall be designed and constructed in a manner which will permit access to the highway facility for the purpose of inspection, maintenance, and reconstruction when necessary.
19. The use of subject airspace conforms with the provisions of the current, appropriate Federal Aviation Agency's regulations.
20. In the design and construction of this airspace facility for the parking of motor vehicles, consideration has been given and will be given to the following:
    (a) Change in parking design or arrangement to assure orderly and functional parking.
    (b) Additional plantings or other screening measures to improve the aesthetics and appearance of the area.
    (c) Additional surfacing, lighting, fencing, striping, curbs, wheel stops, pier protection devices, etc.
    (d) Access for fire protection and fire fighting equipment.
21. City assumes and agrees to pay for all loss and related damages occurring to the highway facility during and after construction of said facility and for injury or death, including costs and expenses incident thereto, caused to any person or to the property of any person by or during the construction of said facility or by the maintenance and repair thereof, or by the use of the facility or by any defect in or failure of said facility, and City shall forever indemnify State against and save and hold it harmless from all liability for any such loss, damage, injury or death.

Furthermore, it is hereby declared and agreed to by the parties named herein, that this said agreement does comply with the airspace control and safety provisions as stated in the Federal Highway Administration, Policy and Procedure Memorandum 80-10.

Therefore, be it acknowledged that this agreement shall be binding upon and inure to the benefit of the parties hereto, their successors and assigns.

In Witness Whereof, City and State have caused this Agreement to be executed by their respective officials and attested to on the dates hereinafter listed.

[Signature forms and Exhibit "A" omitted]

Section 2. The City Clerk is hereby directed to transmit two (2) certified copies of this ordinance to the Department of Transportation of the State of Illinois, Springfield, Illinois, through the Regional Engineer of the Northeast Region of said Department of Transportation, Division of Highways.

Section 3. This ordinance shall be in force and effect from and after its passage and approval.

SECTION 2. It is the determination of the City Council that the City of Chicago and its citizens will be benefited by the utilization of the Freight Tunnnel System as contemplated by this ordinance in that such utilization will enable licensee hereunder, Commonwealth Edison Company, to more effectively and economically provide electric energy to significant portions of the City; and that such provision of electric energy is necessary to the health, safety, and economic well-being of the citizens of Chicago; that placement of licensee's utility facilities in the Freight Tunnel System will result in the provision of electric energy to the people of Chicago with the least inconvenience and cost to the people arising out of the construction of utility facilities; that licensee has the authority,

To the President and Members of the City Council:

Your Committee on Finance, pursuant to the provisions of the procedural Ordinance for issuing General Obligation Bonds, enacted on April 5, 1972, advertised for a Public Hearing on an Ordinance introduced into the City Council by Richard J. Daley, Mayor, City of Chicago on November 14, 1973, recommending the issuance of Bonds in the amount of Forty Million Dollars ($40,000,000.00)

for a Community Improvement and Development Program. Said advertisement was published in a newspaper of general circulation in the City of Chicago to wit "Chicago Today" and said advertisement was published on May 15, 1974 calling for a Public Hearing on May 27, 1974 at 10:00 A.M. A certification of said publication is attached to this report. The Committee on Finance did, at the appointed time and place, hold a Public Hearing and heard the testimony of witnesses.

The Committee on Finance, then, by a roll call, recommended to the City Council the adoption of an Ordinance authorizing the City Comptroller to advertise for sale Forty Million Dollars ($40,000,000.00) of City of Chicago General Obligation Bonds, which ordinance was passed by the City Council on May 29, 1974 (C.J. p. 8219).

The recessed meeting of the Committee on Finance reconvened at the appointed hour and the meeting was called to order to hear the report of the Acting City Comptroller and the Corporation Counsel regarding efforts undertaken to receive more favorable bids on a portion of the aforesaid Community Improvement and Development General Obligation Bond Issue, namely $8,000,000 of Electric Street Lighting Improvement Bonds.

The Acting City Comptroller submitted to the Committee on Finance the results of bids taken for the sale of Electric Street Lighting General Obligation Bonds to provide the funds with which to carry out the project as set forth in the Amended Ordinance. The Acting City Comptroller recommended to the Committee on Finance that it accept and in turn recommend to the City Council the acceptance of the bid with the lowest effective cost to the City of Chicago.

The Committee on Finance, after considering the recommendation of the Acting City Comptroller, recommended that such bid be accepted and the amounts necessary to pay Principal and Interest on Bonds be inserted in the Amended Ordinance in the proper blank spaces provided therefore.

The Committee on Finance, then, by roll call, recommended to the City Council the adoption of the Amended Ordinance, a copy of said roll call is attached hereto and made a part of this Report as follows:

(3) Work on the construction of said improvements as herein provided for is expected to proceed with due diligence to completion;

(4) All of the principal proceeds of the bonds herein authorized are needed for the purpose of paying the cost of constructing the necessary improvements, as herein provided for, including expenses incidental thereto and to the issuance of the bonds herein authorized; and

(5) To the best of the knowledge and belief of the City Council, there are no facts, estimates or circumstances that would materially change the conclusions and representations set forth in this section.

The City Council of said City further covenants and agrees with the purchaser and holders of the bonds herein authorized that so long as any of said bonds remain outstanding, the said City of Chicago and any of its officers will take no action in the investment of funds which may be to the credit of the Fund hereinabove provided for in this section, which action would result in making the interest payable on any of said bonds herein authorized subject to federal income taxes by reason of said bonds being classified as "arbitrage bonds" within the meaning of Section 103(d) of the Internal Revenue Code of 1954, as amended, and any regulations promulgated or proposed thereunder, including Sections 1.103-13 and 1.103-14 of the Income Tax Regulations (26 CFR Part 1), as the same presently exist or may from time to time hereafter be amended. Section 9. That the proceeds of the bonds hereby authorized shall be expended only for the purpose of undertaking an Electric Street Lighting installation and improvement program which is shown on the report describing the same prepared by the Commissioner of Planning and Development presently on file in the office of the City Clerk of the City of Chicago.

Section 10. That all ordinances, resolutions and orders, or parts thereof, in conflict with the provisions of this Ordinance, be and the same are hereby repealed and this Ordinance shall be published by the City Clerk, in pamphlet form, by preparing at least 1,000 copies thereof, which copies are to be made available in his office for public inspection and distribution to members of the public who may wish to avail themselves of a copy of this Ordinance, and this Ordinance shall be in full force and effect upon its publication as herein and as by law provided.

COMMITTEE ON AVIATION.

President of U.S., State Department, Civil Aeronautics Board and Federal Aviation Agency Memorialized to Consider Direct Air Connection for "LOT" Polish Airlines from Poland to Chicago-O'Hare International Airport.

The Committee on Aviation submitted the following report:

CHICAGO, June 20, 1974.

To the President and Members of the City Council:

Your Committee on Aviation, having had under consideration a proposed resolution (which was referred on February 27, 1974) to memorialize the President of the United States, the State Department, the Civil Aeronautics Board, and the Federal Aviation Agency to take immediate and favorable action to consider and accept "LOT" Polish Airlines for appropriate traffic rights making possible the establishment of a regular air connection between O'Hare International Airport in Chicago to Poland, etc.

This recommendation was concurred in by 11 members of the committee, with no dissenting vote.

Respectfully submitted,
(Signed) CASIMIR C. LASKOWSKI,
Chairman.

On motion of Alderman Laskowski the committee's recommendation was *Concurred In* and said proposed resolution was *Adopted,* by yeas and nays as follows:

Yeas—Aldermen Roti, Barnett, Evans, Sawyer, Jones, Cousins, Adduci, Vrdolyak, Bilandic, Kwak, Madrzyk, Langford, Shannon, Hines, Kelley, Stemberk, Rhodes, Marzullo, Zydlo, Ray, Washington, Cross, Filippini, Keane, Gabinski, Frost, Laskowski, Casey, Cullerton, Laurino, Pucinski, Natarus, Singer, Fifielski, Cohen, Hoellen, Hedlund, Wigoda, Stone—39.

Nays—None.

The following is said resolution as adopted:

WHEREAS, Thousands of residents of Chicago and the Midwest, a large number of them of Polish descent, fly to Poland each year for business, pleasure, for general tourism, or to visit relatives; and

WHEREAS, The existing governmental agreement between the U.S.A. and Poland does not allow for the Polish flag carrier "LOT" to have a second landing point in the U.S.A. which makes impossible the implementation of a direct route between Chicago and Poland; and

WHEREAS, Existing air travel patterns necessitate that travelers departing Chicago must change aircraft at either Kennedy International Airport in New York or in one of the Western European capitals with all the hardship, inconvenience and expense caused hereby; such stopovers being especially burdensome on the many elderly air passengers; and

WHEREAS, Substantial congestion of air traffic already exists over Kennedy Airport and with all the hazards inherent in such conditions, and delays in both landing and departing, a direct Chicago-Poland route would bypass this congestion; and

WHEREAS, The denial of a direct flight from Chicago to Poland deprives Chicago and its surrounding communities of many economic benefits which are an important factor in the growth and development of Chicago and the State of Illinois; and

WHEREAS, The City of Chicago and the City of Warsaw recently have agreed to cooperate within the scope of the "Sister City" program being encouraged by the United States State Department to bring about better understanding among the cities of the world; and

WHEREAS, The Civil Aeronautics Board and the City of Chicago have approved ten other international airlines to fly from O'Hare International Airport directly to numerous international destinations and lack of such approval for "LOT" Polish Airlines, especially because of the great number of Americans of Polish descent living in Chicago and other cities in the Midwest, appears unjustified; now, therefore,

Be It Resolved, That the members of the City Council of the City of Chicago hereby memorialize the President of the United States, the State Department, the Civil Aeronautics Board, and the Federal Aviation Agency to take immediate and favorable action to consider and accept for "LOT" Polish Airlines appropriate traffic rights making possible the establishment of a regular air connection between O'Hare International Airport in Chicago to Poland; and

Be It Further Resolved, That a suitable copy of this resolution be forwarded by the City Clerk of the City of Chicago to the President of the United States, the Secretary of State, to the United States Senators from the State of Illinois, the Speaker of the House of Representatives of the United States, each member of the Congress of the United States from the State of Illinois, and to the Chairman of the Civil Aeronautics Board and the Director of the Federal Aviation Agency.

Proposals involving the construction of improvements in airspace shall be approved by the local or the State authority responsible for fire protection standards. In the event the State Department of Transportation or the FHWA question the acceptability of the existing code, conformance with the Uniform Building Code or the National Building Code will be required.

13. Complete tunnel ventilation will be provided for all highway facilities below the airspace structure.

19. The use of subject airspace conforms with the provisions of the current, appropriate Federal Aviation Agency's regulations.

20. In the design and construction of this airspace facility for the parking of motor vehicles, consideration has been given and will be given to the following:

A transverse section of the surface of the finished pavement and gutters shall be an arc of a circle passing through the said gutter elevations and the elevation of the center of said finished roadway at every part of the roadway of said specified street(s) between the points herein described.

In all intersecting alley(s) herein specified at the street lines of said specified street(s) the surface of the finished pavement adjoining the curbing shall be even with the top of the curbing and the surface of the finished pavement at the center of the roadways of said alley(s) shall be three (3) inches below the top of the curbing; and a transverse section of the surface of the finished pavement at the street lines of said specified street(s) shall be an arc of a circle passing through the surface of the pavement adjoining said curbing and the surface of the pavement at the center of said finished roadway(s). The surface of the said pavement thence shall slope gradually to meet the surface of the finished pavement at the curb lines of said specified street(s).

On the sub-grade as formed and compacted shall be spread an insulation course of limestone screenings. Said insulation course shall be one (1) inch in thickness and shall extend across the full width of the roadbed.

On the insulation course as formed and compacted shall be spread a foundation course consisting of a layer of crushed limestone of the best quality, broken so as to pass through a ring of four (4) inches internal diameter and held on a ring of two (2) inches internal diameter. The stone spread shall be well graded as to sizes. It shall be evenly distributed so as to leave no pockets filled with the small size stone. This layer shall be thoroughly rolled with a self propelled three wheel roller, weighing not less than ten (10) tons. The rolling shall begin at the edge of the pavement and the roller shall move parallel with the center line of the roadway. The roller shall progress gradually towards the center of the roadway, uniformly lapping each proceeding track, covering the entire surface with the rear wheels and continuing until the stone does not creep or move ahead of the roller. After the crushed limestone has been thoroughly rolled and keyed, limestone screenings shall be applied gradually over the surface and the rolling continued until sufficient screenings have been applied to completely fill the interstices.

The screenings shall be swept in with hand brooms to properly fill the voids. The spreading and rolling shall continue until no more screenings will go in dry. No excess of screenings shall be used before applying water. Immediately after the voids have been filled with screenings, the macadam shall be sprinkled until saturated, the sprinkler being followed by a roller. More screenings shall be added if necessary. The sprinkling, sweeping and rolling shall continue until a grout shall be formed of the screening and water that will fill all voids, and form a wave of grout before the wheels of the roller. The quantity of screening and water necessary to fill the voids shall be determined by the engineer and shall be sufficient to produce a rough, granular surface. The rolling, at all times, shall begin at the sides, and then progress toward the center, thoroughly covering the entire surface with the rear wheels. When compacted, this layer shall measure not less than five (5) inches in thickness.

Upon the finished waterbound macadam base there shall be uniformly applied by an approved type of spreader box, two (2) inch stone to a depth providing a total base course thickness of three (3) inches after final compaction. After shaping to grade and rolling with a ten (10) ton roller three quarter (¾) inch stone chips shall be broadcast and broomed into the surface voids at the rate of fifteen (15) pounds per square yard. Liquid asphalt at a temperature of 140 degrees F. shall be uniformly applied by a pressure distributor at a rate of one and one-half (1½) gallons per square yard. Stone chips shall again be broadcast and broomed uniformly over the surface at the rate of fifteen (15) pounds per square yard. Liquid asphalt shall be uniformly applied by a pressure distributor at the rate of one-half (½) gallon per square yard. Stone chips shall be broadcast again at the rate of ten (10) pounds per square yard. The surface shall then be thoroughly rolled. The asphalt shall conform to the State Specification for Emulsified Asphalt R. S. 2, Page 640 of Illinois Standard Specifications for Road and Bridge Construction adopted January 2, 1952.

On the said foundation course shall be placed an asphaltic concrete surface course two (2) inches in thickness consisting of an asphaltic concrete mixture conforming to the standard requirements of the Illinois State Division of Highways for Type 1-11 Asphaltic Concrete adopted January 2, 1952, as follows: The asphaltic mix shall consist of a mineral aggregate bonded with the asphaltic cement. The mineral aggregate shall consist of the best quality of crushed gravel or crushed stone in sizes graduated in accordance with the following table, viz:

Asphaltic Concrete Surface Course, Fine Dense Graded Aggregate Type

Passing ½ inch sieve	95-100%
Passing ½ inch, retained on No. 4 sieve	45- 65%

Passing No. 80 retained on No. 200 sieve	5- 13%
Passing No. 200 sieve	4- 8%
Bitumen	5- 7%

(Table 45.11 p. 247 State Specifications)

The asphaltic cement shall conform with the standard requirements of the Illinois State Division of Highways for Grade P.A. 6 Paving Asphalt, adopted January 2, 1952. It shall have a flash point (Cleveland open cup) 500 plus Fahrenheit. It shall have penetration at seventy-seven (77) degrees Fahrenheit of seventy-five (75) to eighty-five (85), and at least ninety-nine and five-tenths (99.5) per cent bitumen shall be soluble in carbon disulphide.

When fifty (50) grams of said paving asphalt is heated in an uncovered tin box five and one-half (5½) centimeters in diameter and three and one-half (3½) centimeters in depth, and is held at a temperature of three hundred and twenty-five (325) degrees Fahrenheit for five (5) hours, then it shall have lost not over two (2) per cent by weight and the penetration of the residue thus obtained shall not be less than seventy (70) per cent of the penetration before such heating, said penetration being determined as herein described. Said paving asphalt shall have a ductility of not less than one hundred (100) centimeters being determined by elongating a briquette Dow form of said paving asphalt at uniform rate of five (5) centimeters per minute at a temperature of seventy-seven (77) degrees Fahrenheit.

The paving asphalt and mineral aggregate shall be mixed when heated between three hundred (300) and three hundred fifty (350) degrees Fahrenheit in an approved mixer to produce a homogenous mixture in which all particles of aggregate are coated uniformly. The heated mixture shall be delivered to the pavement in trucks with approved clean tight dump bodies. The temperature when delivered at the street shall be between two hundred fifty (250) and three hundred fifty (350) degrees Fahrenheit. Upon arrival the asphaltic mixture shall be spread upon the prepared base at a uniform depth and consistency so that the thickness when compacted as herein described will be two (2) inches.

Immediately after the asphalt surface course shall be spread it shall be compacted thoroughly and uniformly with a three (3) wheel roller or a tandem roller. The asphalt paving mix shall be dumped first upon approved steel dump pans outside of the area on which it is to be spread. Im-

mediately thereafter it shall be distributed into place with shovels and spread with rakes in layers of uniform density and correct depth, unless a spreading machine is used. If a spreading machine is used it shall be of a type approved by the Board of Local Improvements. Immediately after the surface course mixture is placed it shall be compacted thoroughly with a three-wheel roller or a tandem roller. One (1) or more three-wheel rollers and one (1) or more tandem rollers will be required. The actual number of such rollers to be determined by the Engineer in accordance with the progress of the work. If the production of the asphalt plant delivered to the pavement exceeds seventy-five (75) tons per hour additional rollers shall be furnished as directed by said Engineer. After a final rolling the asphalt surface course shall at all points have a density of not less than ninety-five (95) per cent of the maximum possible density of a voidless pavement composed of the same materials in like proportions.

IV-2. POZZOLANIC BASE COURSE.

On the subgrade as formed and compacted shall be placed and compacted to the depth shown on the plans and as herein provided.

(a) The pozzolanic base course shall be constructed in layers not more than six (6) inches (compacted) in thickness. When the thickness specified is more than six (6) inches the base course shall be constructed in two (2) or more approximately equal layers. Each layer shall be deposited, full lane width, directly on the prepared subgrade or on the preceeding layer of compacted mixture with a mechanical spreader box of a type approved by the Engineer. Where the base must must be constructed in more than one layer, the previous layer shall be maintained in a moistened condition until the succeeding layer is placed. After having been tested for density and approved by the Engineer, the previous layer shall be raked to a depth of one (1) inch and dampened with water immediately prior to placing the succeeding layer so that the layers are in it together. The second layer must be placed the same way as the first layer. The Engineer of the Board of Local Improvements shall determine when the base course shall be constructed in one or more lifts. When placed, the pozzolanic mixture shall be free from segregation and shall require minimum blanding and manipulation. Immediately after placing the mixture shall be compacted with a pneumatic-tired roller, or with a vibratory compactor, or with a combination of the two. The base course, shall be given a final rolling with a three wheel or tandem roller. If the pozzolanic base is placed on gradual sub-base, the pozzolanic base shall be compacted to at least 100% of maximum density except that if more than one layer is required the first layer shall be compacted to 97% of maximum density and succeeding layers shall be compacted to 100% of maximum density

(b) All pozzolanic mixture shall be placed and compacted the same day as it is mixed. The entire base course within the increment of work shall be completed within 24 hours.

(c) Except in specific cases, when otherwise permitted by the Engineer, the pozzolanic base course mixture shall be placed between April 15 and October 15 and only when the temperature is 40 or more.

(d) The three wheel or tandem rollers shall weigh from 6 to 10 tons and shall weigh not less than 200 pounds nor more than 325 pounds per inch width of roller. The compression developed by the pneumatic tired roller shall be not less than 225 pounds per inch of tire width.

IV-3. MATERIALS.

All materials shall conform to the following requirements:

(a) Lime. High Calcium hydrated lime or monohydrated dolomitic lime shall be used. The lime shall have a total oxide (calcium and magnesium) equivalent to not less than 85% and a loss of ignition of not more than 25%. Monohydrated dolomitic lime shall have only the calcium component hydrated. Exposure of the lime to air shall be held to a minimum. If more than 10% of the lime has reverted to a carbonate, it shall not be used.

(b) Fly Ash. The pozzolan, prior to dampening thereof to alleviate the dust problem shall comply with the requirements of AST Designation: C-379 or C-432 with 10% maximum loss on ignition. The tests prescribed by this specification shall be performed at the option of the Engineer. At the time of mixing the pozzolan shall be in a finely divided condition such that 95% shall pass a ½ inch sieve when dry-sieved.

(c) Coarse Aggregate. The coarse aggregate shall be gravel, crushed stone, crushed slag or boiler slag meeting the following requirements:

The lime, when sampled, shall immediately be placed in a sealed container and shall be kept sealed. Samples shall be furnished at least 45 days prior to the construction of the pozzolanic base course. The samples submitted will be tested for acceptance of materials and also to determine whether or not they will produce a satisfactory mixture; and will be used to determine preliminary proportions for the mixture composition.

At the end of 7 days, the test cylinders for compressive strength testing shall be removed from the containers, allowed to cool to room temperature, soaked for four hours capped and broken for compressive strength within one hour of time of removal from water. The specimens to be tested for freeze-thaw resistance shall be cured in the same manner as the strength specimens without the 4 hour soaking period. After curing the specimens shall be subjected to 12 cycles of freezing and thawing in accordance with AASHO Designation D-560, Sections 5, 9 and 10 pertaining to specimen No. 2 (weight loss specimen).

In all plants, the water shall be proportioned by weight or volume and there shall be means by which the Engineer may readily verify the amount of water per batch or the rate of flow for continuous mixing. The contractor shall provide a platform scale and make arrangements for the use of a certified truck scale of sufficient capacity for calibration and periodic check tests of the feeders or measuring devices as needed during production.

(c) The mixer shall be capable of producing a uniform mixture. Mixing operations shall be continued until all ingredients are distributed evenly throughout the mixture and a uniform mixture, free of segregation, is obtained. The engineer shall be the sole judge of the adequacy of mixing. The mixer shall be capable of discharging the mixture without undue segregation. The moisture content at the time of mixing shall be such that the moisture content at the time of compaction will be within 85 to 100 percent of the optimum moisture determined.

IV-6. PRIME COAT.

This item shall consist of a mixture of aggregate (crushed stone) and bituminous material, plant mixed and constructed on a prepared subgrade in accordance with the requirements of the Board of Local Improvements. The base course shall be laid according to the lines and grades as established by the Engineer. The thickness will be as shown on the standards or plans or as established by the Engineer.

VI-II. All materials shall conform to the requirements of the Standard Specifications for Road and Bridge construction, State of Illinois, adopted August 1, 1968 and the supplemental specifications in effect on the date of invitation for bids.

(a) The sources of supply shall be State approved. Satisfactory evidence shall be presented by the material supplier as to the ability of the source of supply to furnish the aggregate in proper quantity and meet the requirements as to grading and quality.

(b) Gradation of the aggregate shall meet the following requirements:

The Contractor may have the option of deviating from these requirements provided he receive the approval of the Engineer. The Contractor must notify the Engineer a sufficient time in advance of his operation.

(c) If approved by the Engineer, the material may be produced by blending aggregate from more than one source. The components of a blend need not be of the same kind of material. The method of blending must meet the approval of the Engineer. The sources of material and the blending proportions shall not be changed during the progress of the work without written permission from the Engineer.

(d) The bituminous materials used in the mixture shall be asphalt of 85-100, 100-120 or 120-150 Penetration grade. The same grade of bituminous material shall be used throughout the work. The Engineer may make such changes in proportions during the progress of the work as he may consider necessary.

(e) *Samples and Tests.*

A ½ gallon sample of the bituminous aggregate mixture for each 5000 tons produced, shall be taken by the Engineer for extraction tests. A minimum of three samples shall be submitted. The sample shall be a composite sample taken from at least five (5) trucks. A one (1) quart sample of the bituminous material being used shall be taken by the Engineer at the same time the bituminous aggregate mixture sample is taken. The sample shall be taken from the line leading to the asphalt bucket or pub mill spray bar or directly from the asphalt bucket or spray bar. Paving asphalt shall be submitted in a one (1) quart friction top can.

(f) *Mixture Composition and Control Factors.*

The Contractor, at his expense, shall submit a sample of 100 pounds of the aggregate to the Engineer which he proposes to use in the bituminous mixture. The sample shall be submitted at least three weeks prior to start of base construction. The aggregate sample shall be taken under the supervision of the Engineer. At the time of submitting the sample, the Contractor shall state the source of the aggregate and the source and grade of the asphalt that he will use. The sample submitted to the Engineer when mixed with the designated grade of asphalt shall produce a satisfactory bituminous mixture that will have a strength of at least 100 pounds greater than the minimum requirements shown on the plans. If the material will not produce a satisfactory mixture meeting this requirement, the Contractor shall submit a material that will comply. If the aggregate furnished for design purposes contains some crushed material, the Contractor shall submit with the sample a statement giving the percentage of plus No. 4 material that is crushed. Throughout the improvement this percentage shall be maintained within a minus 5 percentage points of this amount.

(g) The mix to be used shall be prepared as required by the appropriate state specification.

(h) The Engineer may order any tests that he may deem necessary to insure the quality of the work.

VI-III. *Construction Procedure.*

(a) Transportation of Bituminous mixes shall be governed by Article 46.14 of the Standard State Specifications.

(b) The subgrade shall be prepared as required in Section II of these specifications. (h) The first layer of the bituminous mixture shall be compacted to a density of not less than 90% of the theoretical density. Succeeding layers or where one layer is used shall be compacted to a density of not less than 90%. The theoretical density shall be computed from the saturated surface dry specific gravity of the aggregate, and the

specific gravity of the asphalt at 77 degrees F., or it may be determined by the high pressure air meter. The density of each of the finished layers of bituminous mixes shall be obtained from specimens furnished by the Contractor. Specimens shall be cut by the Contractor from the finished layer with a core drill. The diameter of a specimen shall in no case be less than 3⅞ inches nor more than 4 inches. Four specimens shall be taken for each days run for each layer. When directed by the Engineer, additional specimens shall be taken, but the total number from one days' run shall not exceed 20. The Contractor shall remove the specimens at locations designated by and in the presence of the Engineer and transport them to a location designated by the Engineer. Extreme care shall be taken to avoid damage to the specimens. The holes caused by the removal of the specimens shall be refilled immediately with bituminous aggregate mixture meeting these specifications, compacted and finished to the satisfaction of the Engineer. The cost of the work required in taking and transporting the specimens and in refilling the holes caused by removal of the specimens shall not be paid for separately, but shall be included in the unit price bid per square yard for pavement.

(i) The stability of the completed base course shall be not less than 900 pounds as required by the State of Illinois.

(j) *Tolerance in Thickness.*

It is the intent that the base course shall be constructed to the nominal thickness shown on the plans. Thickness determinations shall be made at such points as the Engineer may select. If thicknesses less than 95% of nominal thickness are encountered, the extent and depth of the deficient area shall be determined and Bituminous Mixture Base Course or Bituminous Concrete Surface Course shall be placed by the Contractor at his expense to bring the deficient area of the base to nominal thickness. If Bituminous Concrete Surface Course is used, it may be placed as part of the surfacing operation.

(k) On the finished base course shall be laid a bituminous concrete course of 1½ inches in thickness, the surface course shall be constructed in accordance with the requirements of Section IV-12 through IV-9 of these Specifications.

P.C.C. Sidewalk removal and replacement where necessary. Concrete crosswalks shall be built according to the Standard City Code of the City of Chicago.

The Concrete shall conform to Class X Concrete (as described in this ordinance for curbs and gutters).

He further agrees that (except where he has obtained identical certifications from proposed subcontractors for specific time periods) he will ~~obtain identical certifications from proposed subcontractors~~ prior to the award of ~~subcontracts exceeding $10,000 which~~ are not exempt from the provisions of the Equal Opportunity clause; that he will retain such certifications in his files; and that he will forward the following notice to such proposed subcontractors (except where the proposed subcontractors have submitted identical certifications for specific time periods):

A-87, A-95, and A-102, as they relate to the application, acceptance and use of Federal funds for this federally-assisted project. Also, the applicant gives assurance and certifies with respect to the grant that:

1. It possesses legal authority to apply for the grant, and to finance and construct the proposed facilities; that a resolution, motion or similar action has been duly adopted or passed as an official act of the applicant's governing body, authorizing the filing of the application, including all understandings and assurances contained therein, and directing and authorizing the person identified as the official representative of the applicant to act in connection with the application and to provide such additional information as may be required.

2. It will comply with the provisions of: Executive Order 11296, relating to evaluation of flood hazards, and Executive Order 11288, relating to the prevention, control, and abatement of water pollution.

3. It will have sufficient funds available to meet the non-Federal share of the cost for construction projects. Sufficient funds will be available when construction is completed to assure effective operation and maintenance of the facility for the purposes constructed.

4. It will obtain approval by the appropriate Federal agency of the final working drawings and specifications before the project is advertised or placed on the market for bidding; that it will construct the project, or cause it to be constructed, to final completion in accordance with the application and approved plans and specifications; that it will submit to the appropriate Federal agency for prior approval changes that alter the costs of the project, use of space, or functional layout; that it will not enter into a construction contract(s) for the project or undertake other activities until the conditions of the construction grant program(s) have been met.

5. It will provide and maintain competent and adequate architectural engineering supervision and inspection at the construction site to insure that the completed work conforms with the approved plans and specifications; that it will furnish progress reports and such other information as the Federal grantor agency may require.

6. It will operate and maintain the facility in accordance with the minimum standards as may be required or prescribed by the applicable Federal, State and local agencies for the maintenance and operation of such facilities.

7. It will give the grantor agency and the Comptroller General through any authorized representative access to and the right to examine all records, books, papers, or documents related to the grant.

It will require the facility to be designed to comply with the "American Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped," Number A117.1-1961, as modified (41 CFR 101-17.703). The applicant will be responsible for conducting inspections to insure compliance with these specifications by the contractor.

9. It will cause work on the project to be commenced within a reasonable time after receipt of notification from the approving Federal agency that funds have been approved and that the project will be prosecuted to completion with reasonable diligence.

10. It will not dispose of or encumber its title or other interests in the site and facilities during the period of Federal interest or while the Government holds bonds, whichever is the longer.

11. It will comply with Title VI of the Civil Rights Act of 1964 (P.L. 88-352) and in accordance with Title VI of that Act, no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the applicant receives Federal financial assistance and will immediately take any measures necessary to effectuate this agreement. If any real property or structure thereon is provided or improved with the aid of Federal financial assistance extended to the Applicant, this assurance shall obligate the Applicant, or in the case of any transfer of such property, any transferee, for the period during which the real property or structure is used for a purpose for which the Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits.

12. It will establish safeguards to prohibit employees from using their positions for a purpose that is or gives the appearance of being motivated by a desire for private gain for themselves or others, particularly those with whom they have family, business, or other ties.

13. It will comply with the requirements of Title II and Title III of the Uniform Relocation Assistance and Real Property Acquisitions Act of 1970 (P.L. 91-646) which provides for fair and equitable treatment of persons displaced as a result of Federal and federally assisted programs.

16. It will comply with the minimum wage and maximum hours provisions of the Federal Fair Labor Standards Act, as they apply to hospital and educational institution employees of State and local governments.

Part III—SPONSOR'S ASSURANCES

In order to furnish the assurances required by the Act and Regulations the Sponsor hereby covenants and agrees with the United States, as follows:

1. These covenants shall become effective upon acceptance by the Sponsor of an offer of Federal aid for the Project or any portion thereof, made by the FAA and shall constitute a part of the Grant Agreement thus formed. These covenants shall remain in full force and effect throughout the useful life of the facilities developed under this Project, but in any event not to exceed twenty (20) years from the date of said acceptance of an offer of Federal aid for the Project. However, these limitations on the duration of the covenants do not apply to the covenant against exclusive rights. Any breach of these covenants on the part of the Sponsor may result in the suspension or termination of, or refusal to grant Federal assistance under, FAA administered programs, or such other action which may be necessary to enforce the rights of the United States under this agreement.

2. The Sponsor will operate the Airport as such for the use and benefit of the public. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically agrees that it will keep the Airport open to all types, kinds, and classes of aeronautical use on fair and reasonable terms without discrimination between such types, kinds, and classes. Provided; That the Sponsor may establish such fair, equal, and not unjustly discriminatory conditions to be met by all users of the Airport as may be necessary for the safe and efficient operation of the Airport; And Provided Further, That the Sponsor may prohibit or limit any given type, kind, or class of aeronautical use of the Airport if such action is necessary for the safe operation of the Airport or necessary to serve the civil aviation needs of the public.

3. The Sponsor—

a. Will not grant or permit any exclusive right forbidden by Section 308(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1349(a)) at the Airport, or at any other airport now owned or controlled by it;

b. Agrees that, in furtherance of the policy of the FAA under this covenant, unless authorized by the Administrator, it will not, either directly or indirectly, grant or permit any person, firm or corporation the exclusive right at the Airport, or at any other airport now owned or controlled by it, to conduct any aeronautical activities, including, but not limited to charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity;

c. Agrees that it will terminate any existing exclusive right to engage in the sale of gasoline or oil, or both, granted before July 17, 1962, at such an airport, at the earliest renewal, cancellation, or expiration date applicable to the agreement that established the exclusive right; and

d. Agrees that it will terminate any other exclusive right to conduct an aeronautical activity now existing at such an airport before the grant of any assistance under the Airport and Airway Development Act.

4. The Sponsor agrees that it will operate the Airport for the use and benefit of the public, on fair and reasonable terms, and without unjust discrimination. In furtherance of the covenant (but without limiting its general applicability and effect), the Sponsor specifically covenants and agrees:

a. That in its operation and the operation of all facilities on the Airport, neither it nor any person or organization occupying space or facilities thereon will discriminate against any person or class of persons by reason of race, color, creed, or national origin in the use of any of the facilities provided for the public on the Airport.

b. That in any agreement, contract, lease, or other arrangement under which a right or privilege at the Airport is granted to any person, firm, or corporation to conduct or engage in any aeronautical activity for furnishing services to the public at the Airport, the Sponsor will insert and enforce provisions requiring the contractor:

(1) to furnish said service on a fair, equal, and not unjustly discriminatory basis to all users thereof, and

(2) to charge fair, reasonable, and not unjustly discriminatory prices for each unit or service; Provided, That the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.

c. That it will not exercise or grant any right or privilege which would operate to prevent any person, firm or corporation operating aircraft on the Airport from performing any services on its own aircraft with its own employees (including, but not limited to maintenance and repair) that it may choose to perform.

d. In the event the Sponsor itself exercises any of the rights and privileges referred to in subsection b, the services involved will be provided on the same conditions as would apply to the furnishing of such services by contractors or concessionaires of the Sponsor under the provisions of such subsection b.

5. Nothing contained herein shall be construed to prohibit the granting or exercise of an exclusive right for the furnishing of nonaviation products and supplies or any service of a nonaeronautical nature or to obligate the Sponsor to furnish any particular nonaeronautical service at the Airport.

6. The Sponsor will operate and maintain in a safe and serviceable condition the Airport and all facilities thereon and connected therewith which are necessary to serve the aeronautical users of the Airport other than facilities owned or controlled by the United States, and will not permit any activity thereon which would interfere with its use for airport purposes: Provided, That nothing contained herein shall be construed to require that the Airport be operated for aeronautical uses during temporary periods when snow, flood, or other climatic conditions interfere with such operation and maintenance; And Provided Further, That nothing herein shall be construed as requiring the maintenance, repair, restoration or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the Sponsor. In furtherance of this covenant the Sponsor will have in effect at all times arrangements for:

a. Operating the airport's aeronautical facilities whenever required.

b. Promptly marking and lighting hazards resulting from airport conditions, including temporary conditions, and

c. Promptly notifying airmen of any condition affecting aeronautical use of the Airport.

7. Insofar as it is within its power and reasonable, the Sponsor will, either by the acquisition and retention of easements or other interests in or rights for the use of land or airspace or by the adoption and enforcement of zoning regulations, prevent the construction, erection, alteration, or growth of any structure, tree, or other object in the approach areas of the runways of the Airport, which would constitute an obstruction to air navigation according to the criteria or standards prescribed in Section 77.23, as applied to Section 77.25, Part 77 of the Federal Aviation Regulations. In addition, the Sponsor will not erect or permit the erection of any permanent structure or facility which would interfere materially with the use, operation, or future development of the Airport, in any portion of a runway approach area in which the Sponsor has acquired, or hereafter acquires, property interests permitting it to so control the use made of the surface of the land.

8. Insofar as it is within its power and reasonable, the Sponsor will, either by the acquisition and retention of easements or other interests in or rights for the use of land or airspace or by the adoption and enforcement of zoning regulations, take action to restrict the use of land adjacent to or in the immediate vicinity of the Airport to activities and purposes compatible with normal airport operations including landing and takeoff of aircraft.

9. The Sponsor will keep up to date at all times an airport layout plan of the Airport showing (1) the boundaries of the Airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the Sponsor for airport purposes, and proposed additions thereto; (2) the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars and roads), including all proposed extensions and reductions of existing airport facilities; and (3) the location of all existing and proposed nonaviation areas and of all existing improvements thereon. Such airport layout plan and each amendment, revision, or modification thereof, shall be subject to the approval of the FAA, which approval shall be evidenced by the signature of a duly authorized representative of the FAA on the face of the airport layout plan. The Sponsor will not make or permit the making of any changes or alterations in the Airport or any of its facilities other than in conformity with the airport layout plan as so approved by the FAA, if such changes or alterations might adversely affect the safety, utility, or efficiency of the Airport.

10. All facilities of the Airport developed with Federal aid and all those usable for the landing and taking off of aircraft, will be available to the United States at all times, without charge, for use by government aircraft in common with other aircraft, except that if the use by government aircraft is substantial, a reasonable share, proportional to such use, of the cost of operating and maintaining facilities so used, may be charged. Unless otherwise determined by the FAA, or otherwise agreed to by the Sponsor and the using agency, substantial use of an airport by government aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the FAA, would unduly interfere with use of the landing area by other authorized aircraft, or during any calendar month that:

a. Five (5) or more government aircraft are regularly based at the airport or on land adjacent thereto; or

b. The total number of movements (counting each landing as a movement and each takeoff as a movement) of government aircraft is 300 or more, or the gross accumulative weight of government aircraft using the Airport (the total movements of government aircraft multiplied by gross certified weights of such aircraft) is in excess of five million pounds.

11. Whenever so requested by the FAA, the Sponsor will furnish without cost to the Federal Government, for construction, operation, and maintenance of facilities for air traffic control activities, or weather reporting activities and communication activities related to air traffic control, such areas of land or water, or estate therein, or rights in buildings of the Sponsor as the FAA may consider necessary or desirable for construction at Federal expense of space or facilities for such purposes. The approximate amounts of areas and the nature of the property interests and/or rights so required will be set forth in the Grant Agreement relating to the Project. Such areas or any portion thereof will be made available as provided herein within 4 months after receipt of written request from the FAA.

12. The airport operator or owner will maintain a fee and rental structure for the facilities and services being provided the airport users which will make the Airport as self-sustaining as possible under the circumstances existing at the Airport, taking into account such factors as the volume of traffic and economy of collection.

13. The Sponsor will furnish the FAA with such annual or special airport financial and operational reports as may be reasonably requested. Such reports may be submitted on forms furnished by the FAA, or may be submitted in such manner as the Sponsor elects so long as the essential data are furnished. The Airport and all airport records and documents affecting the Airport, including deeds, leases, operation and use agreements, regulations, and other instruments, will be made available for inspection and audit by the Secretary and the Comptroller General of the United States, or their duly authorized representatives, upon reasonable request. 14. All project accounts and records will be kept in accordance with a standard system of accounting if so prescribed by the Secretary.

15. If at any time it is determined by the FAA that there is any outstanding right or claim of right in or to the Airport property, other than those set forth in Part II, paragraphs 7(a), 7(b), and 7(c), the existence of which creates an undue risk of interference with the operation of the Airport or the performance of the covenants of this Part, the Sponsor will acquire, extinguish, or modify such right or claim of right in a manner acceptable to the FAA.

16. The Sponsor will not enter into any transaction which would operate to deprive it of any of the rights and powers necessary to perform any or all of the covenants made herein, unless by such transaction the obligation to perform all such covenants is assumed by another public agency found by the FAA to be eligible under the Act and Regulations to assume such obligations and having the power, authority, and financial resources to carry out all such obligations. If an arrangement is made for management or operation of the Airport by any agency or person other than the Sponsor or an employee of the Sponsor, the Sponsor will reserve sufficient rights and authority to insure that the Airport will be operated and maintained in accordance with the Act, the Regulations, and these covenants.

17. Unless the context otherwise requires, all terms used in these covenants which are defined in the Act and the Regulations shall have the meanings assigned to them therein.

The decision of the Secretary or his duly authorized representative for the determination of such appeals shall be final and conclusive unless deter-

mined by a court of competent jurisdiction to have been fraudulent or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In either event, if the lessee shall fail or neglect to remove the property of the lessee and so restore the leased property, then, at the option of the Secretary of the Air Force, the property of the lessee shall either become the property of the United States without compensation therefor, or the Secretary of the Air Force may cause it to be removed and the leased property to be so restored at the expense of the lessee, and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work.

Notice shall be deemed to have been duly given if and when inclosed in a properly sealed envelope or wrapper, addressed as aforesaid and deposited postage prepaid (or, if mailed by the Government, deposited under its franking privilege) in a post office or branch post office regularly maintained by the United States Government.*

The lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the lessee for the purpose of securing business. For breach or violation of this warranty the Government shall have the right to annul this lease without liability or in its discretion to require the lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.
